the Chattanooga, Tennessee, nonattainment area has attaining data for the 1997 annual PM$_{2.5}$ NAAQS. This determination, in accordance with 40 CFR 52.1004(c), suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment of the standard for as long as this area continues to meet the 1997 annual PM$_{2.5}$ NAAQS.

Section 52.2233 Significant deterioration of air quality.

(d) Determination of attaining data. EPA has determined the Knoxville, Tennessee, nonattainment area has attaining data for the 1997 annual PM$_{2.5}$ NAAQS. This determination, in accordance with 40 CFR 51.1004(c), suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment of the standard for as long as this area continues to meet the 1997 annual PM$_{2.5}$ NAAQS.

(e) Determination of attaining data. EPA has determined Knoxville-Sevierville-La Follette, Tennessee, nonattainment area has attaining data for the 2006 24-hour PM$_{2.5}$ NAAQS. This determination, in accordance with 40 CFR 51.1004(c), suspends the requirements for this area to submit an attainment demonstration, associated reasonably available control measures, a reasonable further progress plan, contingency measures, and other planning SIPs related to attainment of the standard for as long as this area continues to meet the 2006 24-hour PM$_{2.5}$ NAAQS.

§ 52.2232 Determination of attainment.

Based upon EPA’s review of the air quality data for the 3-year period 2007–2009, EPA determined that the Chattanooga, Alabama-Georgia-Tennessee PM$_{2.5}$ nonattainment Area attained the 1997 annual PM$_{2.5}$ NAAQS by the applicable attainment date of April 5, 2010. Therefore, EPA has met the requirement pursuant to CAA section 179(c) to determine, based on the Area’s air quality as of the attainment date, whether the Area attained the standard. EPA also determined that the Chattanooga, Alabama-Georgia-Tennessee PM$_{2.5}$ nonattainment Area is not subject to the consequences of failing to attain pursuant to section 179(d).

[76 FR 55775, Sept. 8, 2011]

§ 52.2233 Significant deterioration of air quality.

(a)(1) Paragraph 1200–3–9–01(4)–(0)–2. of Tennessee’s regulations is disapproved because it does not require that the consent of the Governor(s) of affected states be obtained when innovative technology waivers are granted. EPA retains permitting authority for sources requesting innovative technology waivers which would significantly impact air quality in adjacent states.

(2) Tennessee’s definition of stationary source specifically excludes the activities of any vessel. This exclusion is not currently approvable and EPA is deferring action on it pending final rulemaking on the issue. EPA retains authority for permits which involve vessel emissions where a source is not willing to include all vessel emissions in the definition of source.

(b) The requirements of §52.21 except paragraph (a)(1) are hereby incorporated and made part of the applicable SIP for the State of Tennessee for the following purposes:

(1) Permitting of sources requesting innovative technology waivers which would significantly impact air quality in adjacent states.

(2) Permitting of sources involving vessel emissions where the source is unwilling to include all vessel emissions in the definition of source.

(c)(1) All applications and other information required pursuant to §52.21 of this part from sources located or to be located in the State of Tennessee shall be submitted to the State agency, Tennessee Department of Environment and Conservation, Division of Air Pollution Control, 401 Church Street, 9th Floor, L&C Annex, Nashville, Tennessee 37243–1531, or local agencies, Knox County Air Quality Management Department of Public Health, 140 Dameron Avenue, Knoxville, Tennessee.
