Environmental Protection Agency

§ 52.2591 Section 110(a)(2) infrastructure requirements.

(a) Approval. In a December 12, 2007 submittal, supplemented on January 24, 2011 and March 28, 2011, Wisconsin certified that the State has satisfied the infrastructure SIP requirements of section 110(a)(2)(A) through (C), (D)(i), (E) through (H), and (J) through (M) for the 1997 8-hour ozone NAAQS. EPA is not finalizing its proposed approval of the submission from the State of Wisconsin with respect to two narrow issues that relate to section 110(a)(2)(C): The requirement for consideration of NOx as a precursor to ozone; and (ii) the definition of “major modification” related to fuel changes for certain sources. EPA will address these issues in a later action.

(b) Approval. In a December 12, 2007 submittal, supplemented on January 24, 2011 and March 28, 2011, Wisconsin certified that the State has satisfied the infrastructure SIP requirements of section 110(a)(2)(A) through (C), (D)(i), (E) through (H), and (J) through (M) for the 1997 PM$_{2.5}$ NAAQS. EPA is not finalizing its proposed approval of the submission from the State of Wisconsin with respect to two narrow issues that relate to section 110(a)(2)(C): The requirement for consideration of NOx as a precursor to ozone; and the definition of “major modification” related to fuel changes for certain sources. EPA will address these issues in a later action.

(c) Disapproval. EPA is disapproving the portions of Wisconsin’s infrastructure SIP for the 1997 ozone NAAQS.
