§ 102–74.280 Are privately owned vehicles converted for propane carburetion permitted in underground parking facilities?

Federal agencies must not permit privately owned vehicles converted for propane carburetion to enter underground parking facilities unless the owner provides to the occupant agency and the Federal agency buildings manager the installer’s certification that the installation methods and equipment comply with National Fire Protection Association (NFPA) Standard No. 58.

§ 102–74.285 How must Federal agencies assign priority to parking spaces in controlled areas?

Federal agencies must reserve official parking spaces, in the following order of priority, for—

(a) Official postal vehicles at buildings containing the U.S. Postal Service’s mailing operations;
(b) Federally owned vehicles used to apprehend criminals, fight fires and handle other emergencies;
(c) Private vehicles owned by Members of Congress (but not their staffs);
(d) Private vehicles owned by Federal judges (appointed under Article III of the Constitution), which may be parked in those spaces assigned for the use of the Court, with priority for them set by the Administrative Office of the U.S. Courts;
(e) Other Federally owned and leased vehicles, including those in motor pools or assigned for general use;
(f) Service vehicles, vehicles used in child care center operations, and vehicles of patrons and visitors (Federal agencies must allocate parking for disabled visitors whenever an agency’s mission requires visitor parking); and
(g) Private vehicles owned by employees, using spaces not needed for official business.

However, in major metropolitan areas, Federal agencies may determine that allocations by zone would make parking more efficient or equitable, taking into account the priority for official parking set forth in this section.

§ 102–74.290 May Federal agencies allow employees to use parking spaces not required for official needs?

Yes, Federal agencies may allow employees to use parking spaces not required for official needs.

§ 102–74.295 Who determines the number of employee parking spaces for each facility?

The Federal agency buildings manager must determine the total number of spaces available for employee parking. Typically, Federal agencies must make a separate determination for each parking facility. However, in major metropolitan areas, Federal agencies may determine that allocations by zone would make parking more efficient or more equitably available.

§ 102–74.300 How must space available for employee parking be allocated among occupant agencies?

The Federal agency buildings manager must allocate space available for employee parking among occupant agencies on an equitable basis, such as by allocating such parking in proportion to each agency’s share of building space, office space or total employee population, as appropriate. In certain cases, Federal agencies may allow a third party, such as a board composed of representatives of agencies sharing space, to determine proper parking allocations among the occupant agencies.

§ 102–74.305 How must Federal agencies assign available parking spaces to their employees?

Federal agencies must assign available parking spaces to their employees using the following order of priority:

(a) Severely disabled employees (see definition in §102–71.20 of this chapter);
(b) Executive personnel and persons who work unusual hours;
(c) Vanpool/carpool vehicles;
(d) Privately owned vehicles of occupant agency employees that are regularly used for Government business at least 12 days per month and that qualify for reimbursement of mileage and travel expenses under Government travel regulations.
Federal Management Regulation

§ 102–74.330  What smoking restrictions apply to outside areas under Executive branch control?

Effective June 19, 2009, smoking is prohibited in courtyards and within twenty-five (25) feet of doorways and air intake ducts on outdoor space under the jurisdiction, custody or control of GSA. This six-month phase-in period is designed to establish a fixed but reasonable time for implementing this policy change. This phase-in period will provide agencies with time to comply with their obligations under the Federal Service Labor-Management Relations Act, as amended, 5 U.S.C. Ch. 71, Labor-Management Relations, in those circumstances where there is an exclusive union representative for the employees.
