These species of mammals have been designated as specially protected species and are subject to subpart E of this part.

(a) May be issued only for the purpose of providing—
   (1) Specimens for scientific study or scientific information; or
   (2) Specimens for museums, zoological gardens, or other educational or cultural institutions or uses; or
   (3) For unavoidable consequences of scientific activities or the construction and operation of scientific support facilities; and
   (b) Shall ensure, as far as possible,

   (1) No more native mammals, birds, or plants are taken than are necessary to meet the purposes set forth in paragraph (a) of this section;
   (2) No more native mammals or native birds are taken in any year than can normally be replaced by net natural reproduction in the following breeding season;
   (3) The variety of species and the balance of the natural ecological systems within Antarctica are maintained; and
   (4) The authorized taking, transporting, carrying, or shipping of any native mammal or bird is carried out in a humane manner.

§ 670.18 Content of permit applications.

In addition to the information required in subpart C of this part, an applicant seeking a permit to take a native mammal or native bird shall include a complete description of the project including the purpose of the proposed taking, the use to be made of the native mammals or native birds, and the ultimate disposition of the native mammals and birds. An applicant seeking a permit to engage in a harmful interference shall include a complete description of the project including the purpose of the activity which will result in the harmful interference. Sufficient information must be provided to establish that the taking, harmful interference, transporting, carrying, or shipping of a native mammal or bird shall be humane.

§ 670.22 [Reserved]

Subpart E—Specially Protected Species of Mammals, Birds, and Plants

§ 670.23 Specific issuance criteria.

Permits authorizing the taking of mammals, birds, or plants designated as a Specially Protected Species of mammals, birds, and plants in § 670.25 may only be issued if:

(a) There is a compelling scientific purpose for such taking;
(b) The actions allowed under any such permit will not jeopardize the existing natural ecological system, or the survival of the affected species or population;
(c) The taking involves non-lethal techniques, where appropriate; and
(d) The authorized taking, transporting, carrying or shipping will be carried out in a humane manner.

§ 670.24 Content of permit applications.

In addition to the information required in subpart C of this part, an applicant seeking a permit to take a Specially Protected Species shall include the following in the application:

(a) A detailed scientific justification of the need for taking the Specially Protected Species, including a discussion of possible alternative species;
(b) Information demonstrating that the proposed action will not jeopardize the existing natural ecological system or the survival of the affected species or population; and
(c) Information establishing that the taking, transporting, carrying, or shipping of any native bird or native mammal will be carried out in a humane manner.

§ 670.25 Designation of specially protected species of native mammals, birds, and plants.

The following species has been designated as Specially Protected Species by the Antarctic Treaty Parties and is hereby designated Specially Protected Species:
