Federal Communications Commission

§ 54.643  Funding commitments.

(a) Once a vendor is selected, applicants must submit a “Funding Request” (and supporting documentation) to provide information about the services, equipment, or facilities selected and certify that the services selected were the most cost-effective option of the offers received. The following information should be submitted to the Administrator with the Funding Request.

(1) Request for funding. The applicant shall submit a request for funding (Form 462) to identify the service(s), equipment, or facilities; rates; vendor(s); and date(s) of vendor selection.

(2) Certifications. The applicant must provide the following certifications as part of the request for funding:

(i) The person signing the application is authorized to submit the application on behalf of the applicant and has examined the form and all attachments, and to the best of his or her knowledge, information, and belief, all statements of fact contained therein are true.

(ii) Each vendor selected is, to the best of the applicant’s knowledge, information and belief, the most cost-effective vendor available, as defined in §54.642(c).

(iii) All Healthcare Connect Fund support will be used only for eligible health care purposes.

(iv) The applicant is not requesting support for the same service from both the Telecommunications Program and the Healthcare Connect Fund.

(v) The applicant satisfies all of the requirements under section 254 of the Act and applicable Commission rules, and understands that any letter from the Administrator that erroneously commits funds for the benefit of the applicant may be subject to rescission.

(vi) The applicant has reviewed all applicable requirements for the program and will comply with those requirements.

(vii) The applicant will maintain complete billing records for the service for five years.

(3) Contracts or other documentation. All applicants must submit a contract or other documentation that clearly identifies the vendor(s) selected and the health care provider(s) who will receive the services, equipment, or facilities; the service, bandwidth, and costs for which support is being requested; and the term of the service agreement(s) if applicable (i.e., if services are not being provided on a month-to-month basis). For services, equipment, or facilities provided under contract, the applicant must submit a copy of the contract signed and dated (after the Allowable Contract Selection Date) by the individual health care provider or Consortium Leader. If the service, equipment, or facilities are not being provided under contract, the applicant must submit a bill, service offer, letter, or similar document from the vendor that provides the required information.

(4) Competitive bidding documents. Applicants must submit documentation to support their certifications that they have selected the most cost-effective option, including a copy of each bid received (winning, losing, and disqualified), the bid evaluation criteria, and the following documents (as applicable): bid evaluation sheets; a list of people who evaluated bids (along with their title/role/relationship to the applicant organization); memos, board minutes, or similar documents related to the vendor selection/award; copies of
(5) Cost allocation for ineligible entities or components. Pursuant to §54.639(d)(3) through (d)(4), where applicable, applicants must submit a description of how costs will be allocated for ineligible entities or components, as well as any agreements that memorialize such arrangements with ineligible entities.

(6) Additional documentation for consortium applicants. A consortium applicant must also submit the following:

(i) Any revisions to the network plan submitted with the Request for Services pursuant to §54.642(e)(5)(i), as necessary. If not previously submitted, the consortium should provide a narrative description of how the network will be managed, including all administrative aspects of the network, including but not limited to invoicing, contractual matters, and network operations. If the consortium is required to provide a sustainability plan as set forth in §54.643(a)(6)(iv), the revised budget should include the budgetary factors discussed in the sustainability plan requirements.

(ii) A list of participating health care providers and all of their relevant information, including eligible (and ineligible, if applicable) cost information for each participating health care provider.

(iii) Evidence of a viable source for the undiscounted portion of supported costs.

(iv) Sustainability plans for applicants requesting support for long-term capital expenses: Consortia that seek funding to construct and own their own facilities or obtain indefeasible right of use or capital lease interests are required to submit a sustainability plan with their funding requests demonstrating how they intend to maintain and operate the facilities that are supported over the relevant time period. Applicants may incorporate by reference other portions of their applications (e.g., project management plan, budget). The sustainability plan must, at a minimum, address the following points:

(A) Projected sustainability period. Indicate the sustainability period, which at a minimum is equal to the useful life of the funded facility. The consortium’s budget must show projected income and expenses (i.e., for maintenance) for the project at the aggregate level, for the sustainability period.

(B) Principal factors. Discuss each of the principal factors that were considered by the participant to demonstrate sustainability. This discussion must include all factors that show that the proposed network will be sustainable for the entire sustainability period. Any factor that will have a monetary impact on the network must be reflected in the applicant’s budget.

(C) Terms of membership in the network. Describe generally any agreements made (or to be entered into) by network members (e.g., participation agreements, memoranda of understanding, usage agreements, or other similar agreements). The sustainability plan must also describe, as applicable:

(1) Financial and time commitments made by proposed members of the network;

(2) If the project includes excess bandwidth for growth of the network, describe how such excess bandwidth will be financed; and

(3) If the network will include ineligible health care providers and other network members, describe how fees for joining and using the network will be assessed.

(D) Ownership structure. Explain who will own each material element of the network (e.g., fiber constructed, network equipment, end user equipment). For purposes of this subsection, “ownership” includes an indefeasible right of use interest. Applicants must clearly identify the legal entity that will own each material element. Applicants must also describe any arrangements made to ensure continued use of such elements by the network members for the duration of the sustainability period.

(E) Sources of future support. Describe other sources of future funding, including fees to be paid by eligible health
§ 54.647 Data collection and reporting.

(a) Each consortium lead entity must file an annual report with the Administrator on or before September 30 for the preceding funding year, with the information and in the form specified by the Wireline Competition Bureau.

(b) Each consortium is required to file an annual report for each funding year in which it receives support from the Healthcare Connect Fund.

(c) For consortia that receive large upfront payments, the reporting requirement extends for the life of the supported facility.
