Federal Communications Commission

§ 87.529

(3) Geographical location at time of occurrence;
(4) Frequency interfered with;
(5) Nature of interference; and
(6) Other particulars.

§ 87.481 Unattended operation of domestic radiobeacon stations.

(a) Radiobeacons may be licensed for unattended operation. An applicant must comply with the following:
(1) The transmitter is crystal controlled and specifically designed for radiobeacon service and capable of transmitting by self-actuating means;
(2) The emissions of the transmitter must be continuously monitored by a licensed operator, or by a direct positive automatic monitor, supplemented by aural monitoring at suitable intervals;
(3) If as a result of aural monitoring it is determined that a deviation from the terms of the station license has occurred, the transmitters must be disabled immediately by a properly authorized person. If automatic monitoring is used, the monitor must insure that the operation of the transmitter meets the license terms or is disabled;
(4) A properly authorized person must be able to reach the transmitter and disable it in a reasonable amount of time, so as not to adversely affect life or property in the air;
(5) The equipment must be inspected at least every 180 days. Results of inspections must be kept in the station maintenance records;
(6) The transmitter is not operable by or accessible to, other than authorized persons;
(7) The transmitter is in a remote location.

(b) Authority for unattended operation must be expressly stated in the station license.

§ 87.527 Supplemental eligibility.

(a) Licenses will be granted only upon FAA approval.
(b) Eligibility for an AWOS, an ASOS, or an ATIS is limited to the owner or operator of an airport or to a person who has entered into a written agreement with the owner or operator for exclusive rights to operate and maintain the station. Where applicable a copy of the agreement between the applicant and owner or operator of the airport must be submitted with an application.
(c) Only one AWOS, ASOS, or ATIS will be licensed at an airport.

Subpart R [Reserved]

Subpart S—Automatic Weather Stations (AWOS/ASOS)

§ 87.525 Scope of service.

Automatic weather observation stations (AWOS) and automatic surface observation stations (ASOS) must provide up-to-date weather information including the time of the latest weather sequence, altimeter setting, wind speed and direction, dew point, temperature, visibility and other pertinent data needed at airports having neither a full-time control tower nor a full-time FAA Flight Service Station. When a licensee has entered into an agreement with the FAA, an AWOS or an ASOS may also operate as an automatic terminal information station (ATIS) during the control tower’s operating hours.

[64 FR 27476, May 20, 1999]

§ 87.529 Frequencies.

Prior to submitting an application, each applicant must notify the applicable FAA Regional Frequency Management Office. Each application must be accompanied by a statement showing the name of the FAA Regional Office and date notified. The Commission will assign the frequency. Normally, frequencies available for air traffic control operations set forth in subpart E will be assigned to an AWOS, ASOS, or to an ATIS. When a licensee has entered into an agreement with the FAA to operate the same station as both an AWOS and as an ATIS, or as an ASOS and an ATIS, the same frequency will be used in both modes of operation.

PART 90—PRIVATE LAND MOBILE RADIO SERVICES

Subpart A—General Information

Sec. 90.1 Basis and purpose.
90.5 Other applicable rule parts.
90.7 Definitions.

Subpart B—Public Safety Radio Pool

90.15 Scope.
90.16 Public Safety National Plan.
90.19 Nationwide Public Safety Broadband Network.
90.20 Public Safety Pool.
90.22 Paging operations.

Subpart C—Industrial/Business Radio Pool

90.31 Scope.
90.33 General eligibility.
90.35 Industrial/Business Pool.

Subparts D–E [Reserved]

Subpart F—Radiolocation Service

90.101 Scope.
90.103 Radiolocation Service.

Subpart G—Applications and Authorizations

90.111 Scope.
90.115 Foreign government and alien eligibility.
90.119 Application requirements.
90.121 Canadian registration.
90.127 Submission and filing of applications.
90.129 Supplemental information to be routinely submitted with applications.
90.135 Modification of license.
90.137 Applications for operation at temporary locations.
90.139 Applications for itinerant frequencies.
90.149 License term.
90.155 Time in which station must be placed in operation.
90.157 Discontinuance of station operation.
90.159 Temporary and conditional permits.

Special Rules Governing Facilities Used To Provide Commercial Mobile Radio Services

90.165 Procedures for mutually exclusive applications.
90.168 Equal employment opportunities.
90.169 Construction prior to grant of application.

Subpart H—Policies Governing the Assignment of Frequencies

90.171 Scope.

47 CFR Ch. I (10–1–13 Edition)

90.173 Policies governing the assignment of frequencies.
90.175 Frequency coordination requirements.
90.176 Coordinator notification requirements on frequencies below 512 MHz, at 769–775,799–805 MHz, or at 1427–1432 MHz.
90.179 Shared use of radio stations.
90.185 Multiple licensing of radio transmitting equipment in the mobile radio service.
90.187 Trunking in the bands between 150 and 512 MHz.

Subpart I—General Technical Standards

90.201 Scope.
90.203 Certification required.
90.205 Power and antenna height limits.
90.207 Types of emissions.
90.209 Bandwidth limitations.
90.210 Emission masks.
90.212 Provisions relating to the use of scrambling devices and digital voice modulation.
90.213 Frequency stability.
90.214 Transient frequency behavior.
90.215 Transmitter measurements.
90.217 Exemption from technical standards.
90.219 Use of signal boosters.
90.221 Adjacent channel power limits.

Subpart J—Non-Voice and Other Specialized Operations

90.231 Scope.
90.233 Base/mobile non-voice operations.
90.235 Secondary fixed signaling operations.
90.237 Interim provisions for operation of radioteleprinter and radiofacsimile devices.
90.238 Telemetry operations.
90.239 [Reserved]
90.241 Radio call box operations.
90.242 ‘Travelers’ information stations.
90.243 Mobile relay stations.
90.245 Fixed relay stations.
90.247 Mobile repeater stations.
90.248 Wildlife and ocean buoy tracking.
90.249 Control stations.
90.250 Meteor burst communications.

Subpart K—Standards for Special Frequencies or Frequency Bands

90.251 Scope.
90.253 Use of frequency 5167.5 kHz.
90.255 [Reserved]
90.257 Assignment and use of frequencies in the band 72–76 MHz.
90.259 Assignment and use of frequencies in the bands 216–220 MHz and 1427–1432 MHz.
90.261 Assignment and use of the frequencies in the band 450–470 MHz for fixed operations.
90.263 Substitution of frequencies below 25 MHz.
