(c) The following frequency bands and segments are authorized to telecommand stations:

   (1) The 17 m, 15 m, 12 m and 10 m bands; 6 mm, 4 mm, 2 mm and 1 mm bands; and

   (2) The 7.0–7.1 MHz, 14.00–14.25 MHz, 144–146 MHz, 435–438 MHz, 1260–1270 MHz, and 2400–2450 MHz, 3.40–3.41 GHz, 5.65–5.67 GHz, 10.45–10.50 GHz and 24.00–24.05 GHz segments.

d) A telecommand station may transmit one-way communications.

§ 97.215 Telecommand of a model craft.

An amateur station transmitting signals to control a model craft may be operated as follows:

(a) The station identification procedure is not required for transmissions directed only to the model craft, provided that a label indicating the station call sign and the station licensee’s name and address is affixed to the station transmitter.

(b) The control signals are not considered codes or ciphers intended to obscure the meaning of the communication.

(c) The transmitter power must not exceed 1 W.

§ 97.217 Telemetry.

Telemetry transmitted by an amateur station on or within 50 km of the Earth’s surface is not considered to be codes or ciphers intended to obscure the meaning of communications.

§ 97.219 Message forwarding system.

(a) Any amateur station may participate in a message forwarding system, subject to the privileges of the class of operator license held.

(b) For stations participating in a message forwarding system, the control operator of the station originating a message is primarily accountable for any violation of the rules in this part contained in the message.

(c) Except as noted in (d) of this section, for stations participating in a message forwarding system, the control operators of forwarding stations that retransmit inadvertently communications that violate the rules in this part are not accountable for the violative communications. They are, however, responsible for discontinuing such communications once they become aware of their presence.

(d) For stations participating in a message forwarding system, the control operator of the first forwarding station must:

   (1) Authenticate the identity of the station from which it accepts communications on behalf of the system; or

   (2) Accept accountability for any violation of the rules in this part contained in messages it retransmits to the system.
