Environmental Protection Agency

1542.1503 Procedures.

(a) Past Performance Database. EPA contracting officers shall use the Contractor Performance Assessment Reporting System (CPARS) which has connectivity with the Past Performance Information Retrieval System (PPIRS).

(b) Frequency and Types of Report. CPARS includes four types of reports: Initial, Intermediate, Final and Out-of-Cycle.

(1) An initial report is required for new contracts/orders meeting the thresholds in FAR 42.15 with a period of performance greater than 365 days. The initial CPAR must reflect evaluation of at least the first 180 days of performance and may include up to the first 365 days of performance.

(2) Intermediate reports are due every 12 months throughout the entire period of the contract after the initial report and up to the final report. While formal reports are only required every 12 months, contracting officers should discuss past performance with contractors on an ongoing basis.

(3) A final report shall be prepared upon contract completion. Contracts/orders with less than 365 days performance only require a final report. For contracts longer than 365 days, the final report is not cumulative and covers only the period of performance following the last intermediate report. Final past performance reports must be completed prior to contract closeout.

(4) An out-of-cycle report may be prepared when there is a significant change of performance that alters the assessment in one or more evaluation areas. The contractor may request an Out-of-cycle report be prepared; however, the decision of whether or not to do so is at the discretion of the contracting officer. An out-of-cycle report does not alter the annual intermediate reporting requirement.

(c) Preparing the Evaluation. The contracting officer’s representative shall initiate all reviews and forward to the contracting officer for approval.
content of the evaluations shall be based on objective data supportable by program and contract management records. Remarks should be tailored to the contract type, size, content, and complexity. Contracting officers should provide their own input on the evaluation as applicable and obtain input from the program office, administrative contracting office, end users of the product or service, and any other technical or business advisor, as appropriate.

(d) Small Business Subcontracting Plan. Evaluations shall include an assessment of contractor performance against and efforts to achieve the goals identified in the small business subcontracting plan when the contract includes the clause at FAR 52.219-9, Small Business Subcontracting Plan.

(e) Novation Agreements/Name Changes. In cases of novations involving successors-in-interest, a final evaluation of the predecessor contractor’s performance must be accomplished. The predecessor contractor’s final past performance report shall cover the last 12 months (or less) of contract or order performance. In cases of change-of-name agreements, the system shall be changed to reflect the new contractor’s name.

(f) File Documentation. Copies of the evaluation, contractor response, and review comments (if any) shall be retained as part of the evaluation, and hard copies shall be contained in contract files.

1542.1504 Clauses.

EPA contracting officers shall insert the contract clause at 1552.242-71 in all solicitations, contracts, and orders requiring past performance reports in accordance with FAR Subpart 42.1502. For acquisitions involving options, the total estimated value of the acquisition shall include the estimated base amount plus the option(s) amount(s).

PART 1545—GOVERNMENT PROPERTY

Subpart 1545.1—General

1545.107 Government property clauses.

1542.1504 Providing Government property clauses.

1545.3 Providing Government production and research property under special restrictions.

AUTHORITY: Sec. 205(c), 63 Stat. 390, as amended, 40 U.S.C. 486(c).

SOURCE: 49 FR 8866, Mar. 8, 1984, unless otherwise noted.

Subpart 1545.3—Providing Government Property to Contractors

1545.309 Providing Government production and research property under special restrictions.

1545.309 Providing Government production and research property under special restrictions.

1545.309 Providing Government production and research property under special restrictions.

1545.309 Providing Government production and research property under special restrictions.

(74 FR 47110, Sept. 15, 2009)

Subpart 1545.3—Providing Government Property to Contractors

1545.309 Providing Government production and research property under special restrictions.

Government production and research property, other than foundations and similar improvements necessary for installing special tooling, special test equipment, or plant equipment, shall not be installed or constructed on land not owned by the Government in such fashion as to be nonseverable unless the contract under which the property is provided contains—

(a) One of the provisions in FAR 45.309(a);
