1852.216–88 Performance incentive.

As prescribed in 1816.406–70(f), insert the following clause:

PERFORMANCE INCENTIVE (JAN 1997)

(a) A performance incentive applies to the following hardware item(s) delivered under this contract: (1).

The performance incentive will measure the performance of those items against the salient hardware performance requirement, called “unit(s) of measurement,” e.g., months in service or amount of data transmitted, identified below. The performance incentive becomes effective when the hardware is put into service. It includes a standard performance level, a positive incentive, and a negative incentive, which are described in this clause.

(b) Standard performance level. At the standard performance level, the Contractor has met the contract requirement for the unit of measurement. Neither positive nor negative incentives apply when this level is achieved but not exceeded. The standard performance level for (1) is established as follows: (2).

(c) Positive incentive. The Contractor earns a separate positive incentive amount for each hardware item listed in paragraph (a) of this clause when the standard performance level for that item is exceeded. The amount earned for each item varies with the units of measurement achieved, up to a maximum positive performance incentive amount of $ (3) per item. The units of measurement and the incentive amounts associated with achieving each unit are shown below: (4).

(d) Negative incentive. The Contractor will pay to the Government a negative incentive amount for each hardware item that fails to achieve the standard performance level. The amount to be paid for each item varies with the units of measurement achieved, up to the maximum negative incentive amount of $ (5). The units of measurement and the incentive amounts associated with achieving each unit are shown below: (6).

(e) The final calculation of positive or negative performance incentive amounts shall be done when performance (as defined by the unit of measurement) ceases or when the maximum positive incentive is reached.
