individuals to perform validation; procedures to be used to notify NMFS of validations; and an example of the stamp or seal to be applied to the consignment document or re-export certificate. NMFS, upon finding the applicant capable of verifying the information required on the consignment document or re-export certificate, will issue, within 30 days, a letter specifying the duration of effectiveness and conditions of authority to validate consignment documents or re-export certificates accompanying exports or re-exports from the United States. The effective date of such authorization will be delayed as necessary for NMFS to notify the appropriate RFMO of other officials authorized to validate consignment document or re-export certificates. Non-government organizations given authorization to validate consignment documents or re-export certificates must renew such authorization on a yearly basis.

(f) *BCD tags*—(1) *Issuance*. NMFS will issue numbered BCD tags for use on Pacific bluefin tuna upon request to each permit holder.

(2) *Transfer*. BCD tags issued under this section are not transferable and are usable only by the permit holder to whom they are issued.

(3) *Affixing BCD tags*. At the discretion of permit holders, a tag issued under this section may be affixed to each Pacific bluefin tuna purchased or received by the permit holder. If so tagged, the tag must be affixed to the tuna between the fifth dorsal finlet and the keel.

(4) *Removal of tags*. A tag, as defined in this subpart and affixed to any bluefin tuna, must remain on the tuna until it is cut into portions. If the bluefin tuna or bluefin tuna parts are subsequently packaged for transport for domestic commercial use or for export, the number of each dealer tag or BCD tag must be written legibly and indelibly on the outside of any package containing the bluefin tuna or bluefin tuna parts. Such tag number also must be recorded on any document accompanying the consignment of bluefin tuna or bluefin tuna parts for commercial use or export.

(5) *Labeling*. The number of a BCD tag affixed to each Pacific bluefin tuna

under this section must be recorded on NMFS reports required by § 300.183, on any documents accompanying the consignment of Pacific bluefin tuna for domestic commercial use or export as indicated in § 300.185, and on any additional documents that accompany the consignment (e.g., bill of lading, customs manifest, etc.) of the tuna for commercial use or for export.

(6) *Reuse*. BCD tags issued under this section are separately numbered and may be used only once, one tag per Pacific bluefin tuna, to distinguish the purchase of one Pacific bluefin tuna. Once affixed to a tuna or recorded on any package, container or report, a BCD tag and associated number may not be reused.

§ 300.188 Ports of entry.

NMFS shall monitor the importation of fish or fish products regulated under this subpart into the United States. If NMFS determines that the diversity of handling practices at certain ports at which fish or fish products regulated under this subpart are being imported into the United States allows for circumvention of the consignment document requirement, NMFS may undertake a rulemaking to designate, after consultation with the CBP, those ports at which fish or fish products regulated under this subpart from any ocean area may be imported into the United States.
