Tranship means to unload fish from a vessel that caught fish to another vessel.

Transshipment receiving vessel means any vessel, boat, ship, or other craft that is used to receive fish from a fishing vessel.

Tuna means any fish of the genus Thunnus and the species Euthynnus (Katsuwonus) pelamis.

§ 300.22 Eastern Pacific fisheries recordkeeping and written reports.

(a) The master or other person in charge of a commercial fishing vessel or commercial passenger fishing vessel (CPFV) authorized to fish for tuna and tuna-like species in the Convention Area, or a person authorized in writing to serve as the agent for either person, must keep an accurate log of operations conducted from the fishing vessel. For vessels greater than 400 st (362.8 mt) carrying capacity that are authorized to purse seine for tuna in the Convention Area, the log must include for each day the date, noon position (stated in latitude and longitude or in relation to known physical features), and the tonnage of fish on board, by species. The record and bridge log maintained and submitted at the request of the IATTC shall be sufficient to comply with this paragraph, provided the items of information specified by the IATTC are accurately entered in the log. For purse seine vessels of 400 st (362.8 mt) carrying capacity or less and for non-purse seine vessels, maintaining and submitting any logbook required by existing state or federal regulation shall be sufficient to comply with this paragraph.

(b) Vessel Register. The Vessel Register shall include, consistent with resolutions of the IATTC, all commercial fishing vessels and CPFVs authorized to fish for tuna and tuna-like species in the Convention Area. Except as provided under paragraph (b)(1) of this section, tuna purse seine vessels must be listed on the Vessel Register and categorized as active under paragraph (b)(4)(i) of this section in order to fish for tuna and tuna-like species in the Convention Area.

(1) Exception. Once per year, a vessel that is licensed under the South Pacific Tuna Treaty may exercise an option to fish with purse seine gear to target tuna in the Convention Area without being listed on the Vessel Register, for a fishing trip that does not exceed 90 days in duration. No more than 32 of such trips are allowed each calendar year. After the commencement of the 32nd such trip, the Regional Administrator shall announce, in the FEDERAL REGISTER and by other appropriate means, that no more such trips are allowed for the remainder of the calendar year. Under §216.24(b)(6)(iii)(C) of this title, vessel assessment fees must be paid for vessels exercising this option.

(2) Requirements for inclusion of purse seine vessels on the vessel register. The tuna purse seine portion of the Vessel Register shall include, consistent with resolutions of the IATTC, only vessels that fished in the Convention Area prior to June 28, 2002. Inclusion on the tuna purse seine portion of the Vessel Register is valid through December 31 of each year. New tuna purse seine vessels may be added to the Vessel Register at any time to replace those previously removed by the Regional Administrator, provided that the total capacity of the replacement vessel or vessels does not exceed that of the tuna purse seine vessel or vessels being replaced.

(3) Vessel information. Information on each commercial fishing vessel or CPFV authorized to use purse seine, longline, drift gillnet, harpoon, troll, rod and reel, or pole and line fishing gear to fish for tuna and tuna-like species in the Convention Area for sale shall be collected by the Regional Administrator to conform to IATTC resolutions governing the Vessel Register. This information initially includes, but is not limited to, the vessel name and registration number; the name and business address of the owner(s) and managing owner(s); a photograph of the vessel with the registration number legible; previous vessel name(s) and previous flag (if known and if any); port of registry; International Radio
Call Sign; vessel length, beam, and moulded depth; gross tonnage, fish hold capacity in cubic meters, and carrying capacity in metric tons and cubic meters; engine horsepower; date and place where built; and type of fishing method or methods used. The required information shall be collected as part of existing information collections as described in this and other parts of the CFR.

(4) **Purse seine vessel register status.**

For a purse seine vessel to be listed on the Vessel Register and to be categorized as either “active” or “inactive” in the following calendar year, the vessel owner or managing owner must submit to the Regional Administrator the required permit applications, written notifications, and fees as described under §216.24(b) of this title and under paragraphs (b)(4)(i) and (b)(4)(iii) of this section.

(i) **Active status.** As early as August 1 of each year, vessel owners or managing owners may request that a purse seine vessel qualified to be listed on the Vessel Register under paragraph (b)(2) of this section be categorized as active for the following calendar year. To request a purse seine vessel in excess of 400 st (362.8 mt) carrying capacity be listed on the Vessel Register and be categorized as active, the vessel owner or managing owner must submit to the Regional Administrator the vessel permit application and payment of the permit application fee and vessel assessment fee. To request a purse seine vessel of 400 st (362.8 mt) carrying capacity or less be listed on the Vessel Register and be categorized as active, the vessel owner or managing owner must submit to the Regional Administrator written notification including, but not limited to, a vessel photograph, the vessel information as described under paragraph (b)(3) of this section, and the owner or managing owner’s signature and business telephone and fax numbers. If a purse seine vessel of 400 st (362.8 mt) carrying capacity or less is required by the Agreement on the IDCP to carry an observer, the vessel owner or managing owner must also submit payment of the vessel assessment fee to the Regional Administrator. Vessel permit applications and written notifications must be submitted by fax to (562) 980–4047. The Regional Administrator must receive the vessel permit application or written notification and payment of the permit application fee and vessel assessment fee no later than September 15 for vessels for which a DML was requested for the following year and no later than November 30 for vessels for which a DML was not requested for the following year. Submission of the vessel permit application or written notification and payment of the vessel assessment fee and permit application fee will be interpreted by the Regional Administrator as a request for a vessel to be categorized as active. The following restrictions apply to active status:

(A) The cumulative carrying capacity of all purse seine vessels categorized as active on the Vessel Register may not exceed 31,775 cubic meters in a given year;

(B) A purse seine vessel may not be added to active status on the Vessel Register unless the captain of the vessel has obtained a valid operator permit under §216.24(b)(2) of this title;

(C) Requests for active status will be prioritized according to the following hierarchy:

(1) Requests received for vessels that were categorized as active in the previous year, unless the request for active status was determined to be frivolous by the Regional Administrator under paragraph (b)(4)(ii) of this section;

(2) Requests received for vessels that were categorized as inactive under paragraph (b)(4)(iii) of this section in the previous year;

(3) Requests for vessels not described in paragraphs (b)(4)(i)(C)(1) or (2) of this section will be prioritized on a first-come, first-served basis according to the date and time stamp printed by the incoming fax machine upon receipt, provided that the associated vessel assessment fee is paid by the applicable deadline described in §216.24(b)(6)(iii) of this title; and

(4) Requests received from owners or managing owners of vessels that were determined by the Regional Administrator to have made a frivolous request for active status under paragraph (b)(4)(i) of this section.
Frivolous requests for active status.

(A) Except as described under paragraph (b)(4)(ii)(B) of this section, requests for active status under paragraph (b)(4)(i) of this section will be considered frivolous if, for a vessel categorized as active in a given calendar year:

(1) Less than 20 percent of the vessel’s total landings, by weight, in that same year is comprised of tuna harvested by purse seine in the Convention Area; or

(2) The vessel did not fish for tuna at all in the Convention Area in that same year.

(B) Exceptions. Requests described under paragraph (b)(4)(ii)(A) of this section will not be considered frivolous requests if:

(1) The vessel’s catch pattern fell within the criteria described in paragraph (b)(4)(ii)(A) as a result of force majeure or other extraordinary circumstances as determined by the Regional Administrator; or

(2) The vessel’s carrying capacity is 400 st (362.8 mt) or less and landings of tuna caught by the vessel in the Convention Area comprise 50 percent or less of the vessel’s total landings, by weight, for a given calendar year.

Inactive status. From August 1 through November 30 of each year, vessel owners or managing owners may request that purse seine vessels qualified to be listed on the Vessel Register under paragraph (b)(2) of this section be categorized as inactive for the following calendar year. To request a purse seine vessel in excess of 400 st (362.8 mt) carrying capacity be listed on the Vessel Register and categorized as inactive for the remainder of the calendar year, the vessel owner or managing owner must submit to the Regional Administrator payment of the associated vessel assessment fee. To request a purse seine vessel of 400 st (362.8 mt) carrying capacity or less be listed on the Vessel Register and categorized as inactive for the remainder of the calendar year, the vessel owner or managing owner must submit to the Regional Administrator written notification as described in this paragraph (payment of the vessel assessment fee is not required).

(5) Removal from the vessel register. A vessel may be removed from the Vessel Register by the Regional Administrator:

(i) If the vessel has sunk;

(ii) Upon written request by the vessel’s owner or managing owner;

(iii) Following a final agency action on a permit sanction for a violation;

(iv) For failure to pay a penalty or for default on a penalty payment agreement resulting from a final agency action for a violation;

(v) If the U.S. Maritime Administration or the U.S. Coast Guard notifies NMFS that:

(A) The owner has submitted an application for transfer of the vessel to foreign registry and flag; or

(B) The documentation for the vessel will be or has been deleted for any reason.

(vi) If the vessel does not have a valid state registration or U.S. Coast Guard certificate of documentation;
(vii) For tuna purse seine vessels, upon receipt of written notification from the owner or managing owner of the intent to transfer the vessel to foreign registry and flag, as described in paragraph (b)(8) of this section; or

(viii) For tuna purse seine vessels, if the request for active status on the Vessel Register has been determined to be a frivolous request.

(6) Process for Removal from the Vessel Register. When a vessel is removed from the Vessel Register under paragraph (b)(5) of this section, the Regional Administrator shall promptly notify the vessel owner in writing of the removal and the reasons therefor. For a removal from the Vessel Register under §300.22(b)(5)(iii), the Regional Administrator will not accept a request to reinstate the vessel to the Vessel Register for the term of the permit sanction. For a removal from the Vessel Register under §300.22(b)(5)(iv), the Regional Administrator will not accept a request to reinstate the vessel to the Vessel Register until such time as payment is made on the penalty or penalty agreement, or such other duration as NOAA and the vessel owner may agree upon.

(7) Procedures for replacing purse seine vessels removed from the Vessel Register. (i) A purse seine vessel in excess of 400 st (362.8 mt) carrying capacity that was previously listed on the Vessel Register, but not included for a given year or years, may be added back to the Vessel Register and categorized as inactive at any time during the year, provided the owner or managing owner of the vessel pays the vessel assessment fee associated with inactive status. A purse seine vessel of 400 st (362.8 mt) carrying capacity or less that was previously listed on the Vessel Register, but not included for a given year or years, may be added back to the Vessel Register and categorized as inactive at any time during the year, provided the owner or managing owner of the vessel submits written notification as described in paragraph (b)(4)(iii) of this section.

(ii) A purse seine vessel may be added to the Vessel Register and categorized as active in order to replace a vessel removed from active status under paragraph (b)(5) of this section, provided the total carrying capacity of the active vessels does not exceed 31,775 cubic meters and the owner submits a complete request under paragraph (b)(7)(iv) or (b)(7)(v) of this section.

(iii) After a purse seine vessel categorized as active is removed from the Vessel Register, the Regional Administrator will notify owners or managing owners of vessels categorized as inactive that replacement capacity is available on the active list of the Vessel Register. In the event that owners of inactive vessels do not request to replace a removed vessel, the Regional Administrator will notify owners of vessels eligible for, but not included on, the Vessel Register that replacement capacity is available on the active list of the Vessel Register.

(iv) Vessel owners or managing owners may request a purse seine vessel of 400 st (362.8 mt) carrying capacity or less be categorized as active to replace a vessel or vessels removed from the Vessel Register by submitting to the Regional Administrator written notification as described in paragraph (b)(4)(i) of this section and, only if the vessel is required by the Agreement on the IDCP to carry an observer, payment of the vessel assessment fee within 10 business days after submission of the faxed written notification. The replacement vessel will be eligible to be categorized as active on the Vessel Register if it has a carrying capacity equal to or less than the vessel or vessels being replaced. Payments received will be subject to a 10 percent surcharge for vessels that were listed as active on the Vessel Register in the previous calendar year, but not listed as inactive at the beginning of the calendar year for which active status was requested.

(v) Vessel owners or managing owners may request a purse seine vessel in excess of 400 st (362.8 mt) carrying capacity be categorized as active to replace a vessel or vessels removed from the Vessel Register by submitting to the Regional Administrator the vessel permit application as described under §216.24(b) of this title and payment of the vessel assessment fee and permit application fee within 10 business days after submission of the faxed vessel permit application for the replacement vessel. The replacement vessel will be
§ 300.24 Prohibitions.
In addition to the prohibitions in §300.4, it is unlawful for any person or vessel subject to the jurisdiction of the United States to:

(a) Land any species of tuna during the closed season for that species in excess of the amount allowed by the Regional Administrator.

(b) Fish on floating objects in the Convention Area using any gear type specified by the Regional Administrator’s notification of closure issued under §300.25.

(c) Use tender vessels in the Convention Area.

(d) Transship purse seine-caught tuna at sea within the Convention Area.

(e) Fail to retain any bigeye, skipjack, or yellowfin tuna caught by a fishing vessel of the United States of class size 4–6 using purse seine gear in the Convention Area as required under §300.25(e)(1).

(f) When using purse seine gear to fish for tuna in the Convention Area, fail to release any non-tuna species as soon as practicable after being identified on board the vessel during the brailing operation.

(g) Land any non-tuna fish species taken in a purse seine set in the Convention Area.

(h) Fail to use the sea turtle handling, release, and resuscitation procedures in §300.25(e).

(i) Fail to report information when requested by the Regional Administrator under §300.22.

(j) Fail to provide written notification as described under §300.22(b)(8) to the Regional Administrator at least 10 business days prior to submission of an application to transfer a purse seine vessel listed on the Vessel Register to foreign registry and flag, unless transfer of the vessel requires approval by the U.S. Maritime Administration.

(k) Use a fishing vessel over 24 meters in length to retain on board, transship, or land bigeye tuna captured by longline gear in the Convention Area or to fish in contravention of §300.25(b)(4)(i) or (ii).

(l) Use a fishing vessel over 24 meters in length to fish in the Pacific Ocean using longline gear both inside and outside the Convention Area on the
