§ 622.26  Recordkeeping and reporting.

(a) Commercial vessel owners and operators. The owner or operator of a vessel for which a commercial permit for Gulf reef fish has been issued, as required under §622.20(a)(1), or whose vessel fishes for or lands reef fish in or from state waters adjoining the Gulf EEZ, who is selected to report by the SRD must maintain a fishing record on a form available from the SRD. These completed fishing records must be submitted to the SRD postmarked not later than 7 days after the end of each fishing trip. If no fishing occurred during a calendar month, a report so stating must be submitted on one of the forms postmarked not later than 7 days after the end of that month. Information to be reported is indicated on the form and its accompanying instructions.

(b) Charter vessel/headboat owners and operators—(1) Reporting requirement. The owner or operator of a vessel for which a charter vessel/headboat permit for Gulf reef fish has been issued, as required under §622.20(b), or whose vessel fishes for or lands such reef fish in or from state waters adjoining the Gulf EEZ, who is selected to report by the SRD must maintain a fishing record for each trip, or a portion of such trips as specified by the SRD, on forms provided by the SRD and must submit such record as specified in paragraph (b)(2) of this section.

(2) Reporting deadlines—(i) Charter vessels. Completed fishing records required by paragraph (b)(1) of this section for charter vessels must be submitted to the SRD weekly, postmarked not later than 7 days after the end of each week (Sunday). Information to be reported is indicated on the form and its accompanying instructions.

(ii) Headboats. Completed fishing records required by paragraph (b)(1) of this section for headboats must be submitted to the SRD monthly and must either be made available to an authorized statistical reporting agent or be postmarked not later than 7 days after the end of each month. Information to be reported is indicated on the form and its accompanying instructions.

(c) Dealers. A person who purchases Gulf reef fish from a fishing vessel, or person, that fishes for or lands such fish in or from the EEZ or adjoining state waters must maintain records and submit information as follows:

(1) A dealer must maintain at his/her principal place of business a record of Gulf reef fish that he/she receives. The record must contain the name of each fishing vessel from which reef fish were received and the date, species, and quantity of each receipt. A dealer must retain such record for at least 1 year after receipt date and must provide such record for inspection upon the request of an authorized officer or the SRD.

(2) When requested by the SRD, a dealer must provide information from his/her record of Gulf reef fish received, the total poundage of each species received during the month, average monthly price paid for each species by market size, and proportion of total poundage landed by each gear type. This information must be provided on forms available from the SRD and must be submitted to the SRD at monthly intervals, postmarked not later than 5 days after the end of the month. Reporting frequency and reporting deadlines may be modified upon notification by the SRD. If no reef fish were received during a calendar month, a report so stating must be submitted on one of the forms, postmarked not later than 5 days after the end of the month.

(3) The operator of a car or truck that is used to pick up from a fishing vessel reef fish harvested from the Gulf must maintain a record containing the name of each fishing vessel from which reef fish on the car or truck have been received. The vehicle operator must provide such record for inspection upon the request of an authorized officer.

§ 622.27  At-sea observer coverage.

(a) Required coverage. A vessel for which a Federal commercial vessel permit for Gulf reef fish or a charter vessel/headboat permit for Gulf reef fish has been issued must carry a NMFS-approved observer, if the vessel’s trip is
selected by the SRD for observer coverage. Vessel permit renewal is contingent upon compliance with this paragraph (a).

(b) Notification to the SRD. When observer coverage is required, an owner or operator must advise the SRD in writing not less than 5 days in advance of each trip of the following:

(1) Departure information (port, dock, date, and time).
(2) Expected landing information (port, dock, and date).

(c) Observer accommodations and access. An owner or operator of a vessel on which a NMFS-approved observer is embarked must:

(1) Provide accommodations and food that are equivalent to those provided to the crew.
(2) Allow the observer access to and use of the vessel’s communications equipment and personnel upon request for the transmission and receipt of messages related to the observer’s duties.
(3) Allow the observer access to and use of the vessel’s navigation equipment and personnel upon request to determine the vessel’s position.
(4) Allow the observer free and unobstructed access to the vessel’s bridge, working decks, holding bins, weight scales, holds, and any other space used to hold, process, weigh, or store fish.
(5) Allow the observer to inspect and copy the vessel’s log, communications logs, and any records associated with the catch and distribution of fish for that trip.

§ 622.28 Vessel monitoring systems (VMSs).

The VMS requirements of this section apply throughout the Gulf of Mexico and adjacent states.

(a) General VMS requirement. An owner or operator of a vessel that has been issued a commercial vessel permit for Gulf reef fish, including a charter vessel/headboat issued such a permit even when under charter, must ensure that such vessel has an operating VMS approved by NMFS for use in the Gulf reef fish fishery on board at all times whether or not the vessel is underway, unless exempted by NMFS under the power-down exemptions specified in paragraph (d) of this section and in the NOAA Enforcement Vessel Monitoring System Requirements for the Reef Fish Fishery of the Gulf of Mexico. This NOAA Enforcement Vessel Monitoring System Requirements document is available from NMFS Office for Law Enforcement (OLE), Southeast Region, 263 13th Avenue South, St. Petersburg, FL 33701; phone: 800–758–4833. An operating VMS includes an operating mobile transmitting unit on the vessel and a functioning communication link between the unit and NMFS as provided by a NMFS-approved communication service provider. NMFS OLE maintains a current list of approved VMS units and communication providers which is available from the VMS Support Center, NMFS OLE, 8484 Georgia Avenue, Suite 415, Silver Spring, MD 20910 or by calling toll free: 888–219–9228. If a VMS unit approved for the Gulf reef fish fishery is removed from the approved list by NMFS OLE, a vessel owner who purchased and installed such a VMS unit prior to its removal from the approved list will be considered to be in compliance with the requirement to have an approved unit, unless otherwise notified by NMFS OLE. At the end of a VMS unit’s service life, it must be replaced with a currently approved unit for the fishery.

(b) Hourly reporting requirement. An owner or operator of a vessel subject to the requirements of paragraph (a) of this section must ensure that the required VMS unit transmits a signal indicating the vessel’s accurate position at least once an hour, 24 hours a day every day unless exempted under paragraphs (c) or (d) of this section.

(c) In-port exemption. While in port, an owner or operator of a vessel with a type-approved VMS unit configured with the 4-hour reporting feature may utilize the 4-hour reporting feature rather than comply with the hourly reporting requirement specified in paragraph (b) of this section. Once the vessel is no longer in port, the hourly reporting requirement specified in paragraph (b) of this section applies. For the purposes of this section, “in port” means secured at a land-based facility, or moored or anchored after the return to a dock, berth, beach, seawall, or ramp.
