§ 648.320 Skate FMP review and monitoring.

(a) Annual review and specifications process. The Council, its Skate Plan Development Team (PDT), and its Skate Advisory Panel shall monitor the status of the fishery and the skate resources.

(1) The Skate PDT shall meet at least annually to review the status of the species in the skate complex. At a minimum, this review shall include annual updates to survey indices, fishery landings and discards; a re-evaluation of stock status based on the updated survey indices and the FMP’s overfishing definitions; and a determination of whether any of the accountability measures specified under §648.323 were triggered. The review shall also include an analysis of changes to other FMPs (e.g., Northeast Multispecies, Monkfish, Atlantic Scallops, etc.) that may impact skate stocks, and describe the anticipated impacts of those changes on the skate fishery.

(2) If new and/or additional information becomes available, the Skate PDT shall consider it during this annual review. Based on this review, the Skate PDT shall provide guidance to the Skate Committee and the Council regarding the need to adjust measures in the Skate FMP to better achieve the FMP’s objectives. After considering guidance, the Council may submit to NMFS its recommendations for changes to management measures, as appropriate, through the specifications process described in this section, the framework process specified in §648.321, or through an amendment to the FMP.

(b) Emergency action. Nothing in this section is meant to derogate from the authority of the Secretary to take emergency action under section 305(e) of the Magnuson-Stevens Act.

Subpart O—Management Measures for the NE Skate Complex Fisheries

SOURCE: 68 FR 49701, Aug. 19, 2003, unless otherwise noted.
§ 648.321 Framework adjustment process.

(a) Adjustment process. To implement a framework adjustment for the Skate FMP, the Council shall develop and analyze proposed actions over the span of at least two Council meetings (the initial meeting agenda must include notification of the impending proposal for a framework adjustment) and provide advance public notice of the availability of both the proposals and the analyses. Opportunity to provide written and oral comments shall be provided throughout the process before the Council submits its recommendations to the Regional Administrator.

(1) Council review and analyses. In response to the annual review, or at any other time, the Council may initiate action to add or adjust management measures if it finds that action is necessary to meet or be consistent with the goals and objectives of the Skate FMP. After a framework action has been initiated, the Council shall develop and analyze appropriate management actions within the scope of measures specified in paragraph (b) of this section. The Council shall publish notice of its intent to take action and provide the public with any relevant analyses and opportunity to comment on any possible actions. Documentation and analyses for the framework adjustment shall be available at least 1 week before the final meeting.

(b) Biennial SAFE Report—(1) The Skate PDT shall prepare a biennial Stock Assessment and Fishery Evaluation (SAFE) Report for the NE skate complex. The SAFE Report shall be the primary vehicle for the presentation of all updated biological and socio-economic information regarding the NE skate complex and its associated fisheries. The SAFE Report shall provide source data for any adjustments to the management measures that may be needed to continue to meet the goals and objectives of the FMP.

(2) In any year in which a SAFE Report is not completed by the Skate PDT, the annual review process described in paragraph (a) of this section shall be used to recommend any necessary adjustments to specifications and/or management measures in the FMP.
