§ 5.1 Parity index and index of prices received by farmers.

January 1959 and published in the January 30, 1959, and subsequent issues of "Agricultural Prices". The simple average of the 120 monthly indices included in the preceding 10 calendar years plus an adjustment to take account of the effect on the index of any adjustment made on average prices of individual commodities as hereinafter specified shall be used in the calculation of the adjusted base prices. Parity prices heretofore published for periods prior to January 1, 1959 shall not be revised.

(c) The term *milkfat* as used in these regulations is synonymous with the term *butterfat*, and when any statute requires calculation of the parity price of butterfat, the parity price of milkfat shall be the parity price of butterfat.
