Commodity Credit Corporation, USDA

§ 1470.2 Misrepresentation and scheme or device.
1470.37 Environmental credits for conservation improvements.

SOURCE: 75 FR 31653, June 3, 2010, unless otherwise noted.

Subpart A—General Provisions

§ 1470.1 Applicability.
(a) This part sets forth the policies, procedures, and requirements for the Conservation Stewardship Program (CSP) as administered by the Natural Resources Conservation Service (NRCS), for enrollment during fiscal year (FY) 2009 and thereafter.
(b) The purpose of CSP is to encourage producers to address resource concerns in a comprehensive manner by:
(1) Undertaking additional conservation activities; and
(2) Improving, maintaining, and managing existing conservation activities.
(c) CSP is applicable in any of the 50 States, District of Columbia, Commonwealth of Puerto Rico, Guam, Virgin Islands of the United States, American Samoa, and Commonwealth of the Northern Mariana Islands.
(d) NRCS provides financial assistance and technical assistance to participants for the conservation, protection, and improvement of soil, water, and other related natural resources, and for any similar conservation purpose as determined by NRCS.

§ 1470.2 Administration.
(a) The regulations in this part will be administered under the general supervision and direction of the Chief, NRCS, who is a Vice President of the Commodity Credit Corporation (CCC).
(b) The Chief is authorized to modify or waive a provision of this part if the Chief deems the application of that provision to a particular limited situation to be inappropriate and inconsistent with the purposes of the program. This authority cannot be further delegated. The Chief may not modify or waive any provision of this part which is required by applicable law.
(c) To achieve the conservation goals of CSP, NRCS will:
(1) Make the program available nationwide to eligible applicants on a
continuous application basis with one or more ranking periods to determine enrollments. One of the ranking periods will occur in the first quarter of each fiscal year, to the extent practicable; and

(2) Develop conservation measurement tools (CMT) for the purpose of carrying out the program.

(d) During the period beginning on October 1, 2008, and ending on September 30, 2017, NRCS will, to the maximum extent practicable:

(1) Enroll in CSP an additional 12,769,000 acres for each fiscal year; and

(2) Manage CSP to achieve a national average rate of $18 per acre, which includes the costs of all financial and technical assistance and any other expenses associated with program enrollment and participation.

(e) The State Conservationist will:

(1) Obtain advice from the State Technical Committee and local working groups on the development of State-level technical, outreach, and program matters, including:

(i) Establishment of ranking pools appropriate for the conduct of CSP within the State to ensure program availability and prioritization of conservation activities. Ranking pools may be based on watersheds, geographic areas, or other appropriate regions within a State and may consider high-priority regional and State-level resource concern areas;

(ii) Identification of not less than three, nor more than five priority resource concerns in particular watersheds, geographic areas, or other appropriate regions within a State;

(iii) Identification of resource-conserving crops that will be part of resource-conserving crop rotations;

(iv) Development of design protocols and participation procedures for participation in on-farm research, and demonstration and pilot projects; and

(v) Evaluation of Cooperative Conservation Partnership Initiative (CCPI) projects and allowable program adjustments for the conduct of projects.

(2) Assign NRCS employees as designated conservationists to be responsible for CSP at the local level; and

(3) Be responsible for the program in their assigned State.

(f) NRCS may enter into agreements with Federal, State, and local agencies, conservation districts, Indian tribes, private entities, and individuals to assist NRCS with program implementation.

§ 1470.3 Definitions.

The following definitions will apply to this part and all documents issued in accordance with this part, unless specified otherwise:

Agricultural land means cropland, rangeland, and pastureland on which agricultural products or livestock are produced and resource concerns may be addressed. Agricultural lands may also include other land and incidental areas included in the agricultural operation as determined by NRCS. Other agricultural lands include cropped woodland, marshes, incidental areas included in the agricultural operation, and other types of agricultural land used for production of livestock.

Agricultural operation means all agricultural land and other land, as determined by NRCS, whether contiguous or noncontiguous:

(1) Which is under the effective control of the applicant; and

(2) Which is operated by the applicant with equipment, labor, management, and production or cultivation practices that are substantially separate from other operations.

Animal waste storage or treatment facility means a structural conservation practice used for storing or treating animal waste.

Applicant means a person, legal entity, joint operation, or Indian tribe that has an interest in an agricultural operation, as defined in 7 CFR part 1400, who has requested in writing to participate in CSP.

Beginning farmer or rancher means:

(1) An individual or legal entity who:

(i) Has not operated a farm, ranch, or nonindustrial private forest land (NIPF), or who has operated a farm, ranch, or NIPF for not more than 10 consecutive years (this requirement applies to all members of a legal entity); and

(ii) Will materially and substantially participate in the operation of the farm or ranch.
