

shall include a provision for compliance with Sections 102 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333), as supplemented by Department of Labor regulations (29 CFR part 5). Under Section 102 of the Act, each contractor shall be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than 1½ times the basic rate of pay for all hours worked in excess of 40 hours in the work week. Section 107 of the Act is applicable to construction work and provides that no laborer or mechanic shall be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

5. *Rights to Inventions Made Under a Contract or Agreement*—Contracts or agreements for the performance of experimental, developmental, or research work shall provide for the rights of the Federal Government and the recipient in any resulting invention in accordance with 37 CFR part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency.

6. *Clean Air Act (42 U.S.C. 7401 et. seq.) and the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.), as amended*—Contracts and subgrants of amounts in excess of \$100,000 shall contain a provision that requires the recipient to agree to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401 et seq.) and the Federal Water Pollution Control Act as amended (33 U.S.C. 1251 et seq.). Violations shall be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

7. *Byrd Anti-Lobbying Amendment (31 U.S.C. 1352)*—Contractors who apply or bid for an award of \$100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient.

8. *Debarment and Suspension (E.O.s 12549 and 12689)*—All parties doing business with the Department of Agriculture should consult the Department’s regulations for debarment and suspension found at 7 CFR 3017. No contract shall be made to parties listed on the General Services Administration’s List of Parties Excluded from Federal Procurement or Nonprocurement Programs in accordance with E.O.s 12549 and 12689, “Debarment and Suspension.” This list contains the names of parties debarred, suspended, or otherwise excluded by agencies, and contractors declared ineligible under statutory or regulatory authority other than E.O. 12549. Contractors with awards that exceed the small purchase threshold shall provide the required certification regarding its exclusion status and that of its principal employees.

PART 3022—RESEARCH INSTITUTIONS CONDUCTING USDA-FUNDED EXTRAMURAL RESEARCH; RESEARCH MISCONDUCT

Sec.

AUTHORITY: Office of Science and Technology Policy (65 FR 76260); USDA Secretary’s Memorandum (SM) 2400-007; and USDA OIG, 7 CFR 2610.1(c)(4)(ix).

SOURCE: 75 FR 49359, Aug. 13, 2010, unless otherwise noted.

§ 3022.1 Definitions.

Adjudication. The stage in response to an allegation of research misconduct when the outcome of the investigation is reviewed, and appropriate corrective actions, if any, are determined. Corrective actions generally will be administrative in nature, such as termination

of an award, debarment, award restrictions, recovery of funds, or correction of the research record. However, if there is an indication of violation of civil or criminal statutes, civil or criminal sanctions may be pursued.

Agency Research Integrity Officer (ARIO). The individual appointed by a USDA agency that conducts research and who is responsible for:

(1) Receiving and processing allegations of research misconduct as assigned by the USDA RIO;

(2) Informing OIG and the USDA RIO and the research institution associated with the alleged research misconduct, of allegations of research misconduct in the event it is reported to the USDA agency;

(3) Ensuring that any records, documents and other materials relating to a research misconduct allegation are provided to OIG when requested;

(4) Coordinating actions taken to address allegations of research misconduct with respect to extramural research with the research institution(s) at which time the research misconduct is alleged to have occurred, and with the USDA RIO;

(5) Overseeing proceedings to address allegations of extramurally funded research misconduct at intramural research institutions and research institutions where extramural research occurs;

(6) Ensuring that agency action to address allegations of research misconduct at USDA agencies performing extramurally funded research is performed at an organizational level that allows an independent, unbiased, and equitable process;

(7) Immediately notifying OIG, the USDA RIO, and the applicable research institution if:

(i) Public health or safety is at risk;

(ii) USDA's resources, reputation, or other interests need protecting;

(iii) Research activities should be suspended;

(iv) Federal action may be needed to protect the interest of a subject of the investigation or of others potentially affected;

(v) A premature public disclosure of the inquiry into or investigation of the allegation may compromise the process;

(vi) The scientific community or the public should be informed; or

(vii) Behavior that is or may be criminal in nature is discovered at any point during the inquiry, investigation, or adjudication phases of the research misconduct proceedings;

(8) Documenting the dismissal of the allegation, and ensuring that the name of the accused individual and/or institution is cleared if an allegation of research misconduct is dismissed at any point during the inquiry or investigation phase of the proceedings;

(9) Other duties relating to research misconduct proceedings as assigned.

Allegation. A disclosure of possible research misconduct through any means of communication. The disclosure may be by written or oral statement, or by other means of communication to an institutional or USDA official.

Applied research. Systematic study to gain knowledge or understanding necessary to determine the means by which a recognized and specific need may be met.

Assistant Inspector General for Investigations. The individual in OIG who is responsible for OIG's domestic and foreign investigative operations through a headquarters office and the six regional offices.

Basic research. Systematic study directed toward fuller knowledge or understanding of the fundamental aspects of phenomena and of observable facts without specific applications towards processes or products in mind.

Extramural research. Research conducted by any research institution other than the Federal agency to which the funds supporting the research were appropriated. Research institutions conducting extramural research may include Federal research facilities.

Fabrication. Making up data or results and recording or reporting them.

Falsification. Manipulating research materials, equipment, or processes, or changing or omitting data or results such that the research is not accurately represented in the research record.

Finding of research misconduct. The conclusion, proven by a preponderance of the evidence, that research misconduct occurred, that such research misconduct represented a significant

departure from accepted practices of the relevant research community, and that such research misconduct was committed intentionally, knowingly, or recklessly.

Inquiry. The stage in the response to an allegation of research misconduct when an assessment is made to determine whether the allegation has substance and whether an investigation is warranted.

Intramural research. Research conducted by a Federal Agency, to which funds were appropriated for the purpose of conducting research.

Investigation. The stage in the response to an allegation of research misconduct when the factual record is formally developed and examined to determine whether to dismiss the case, recommend a finding of research misconduct, and/or take other appropriate remedies.

Office of Inspector General (OIG). The Office of Inspector General of the United States Department of Agriculture.

Office of Science and Technology Policy (OSTP). The Office of Science and Technology Policy of the Executive Office of the President.

Plagiarism. The appropriation of another person's ideas, processes, results, or words without giving appropriate credit.

Preponderance of the evidence. Proof by information that, compared with that opposing it, leads to the conclusion that the fact at issue is more probably true than not.

Research. All basic, applied, and demonstration research in all fields of science, engineering, and mathematics. This includes, but is not limited to, research in economics, education, linguistics, medicine, psychology, social sciences, statistics, and research involving human subjects or animals regardless of the funding mechanism used to support it.

Research institution. All organizations using Federal funds for research, including, for example, colleges and universities, Federally funded research and development centers, national user facilities, industrial laboratories, or other research institutes.

Research misconduct. Fabrication, falsification, or plagiarism in proposing,

performing, or reviewing research, or in reporting research results. Research misconduct does not include honest error or differences of opinion.

Research record. The record of data or results that embody the facts resulting from scientific inquiry, and includes, but is not limited to, research proposals, research records (including data, notes, journals, laboratory records (both physical and electronic)), progress reports, abstracts, theses, oral presentations, internal reports, and journal articles.

United States Department of Agriculture. USDA.

USDA Research Integrity Officer (USDA RIO). The individual designated by the Office of the Under Secretary for Research, Education, and Economics (REE) who is responsible for:

- (1) Overseeing USDA agency responses to allegations of research misconduct;
- (2) Ensuring that agency research misconduct procedures are consistent with this part;
- (3) Receiving and assigning allegations of research misconduct reported by the public;
- (4) Developing Memoranda of Understanding with agencies that elect not to develop their own research misconduct procedures;
- (5) Monitoring the progress of all research misconduct cases; and
- (6) Serving as liaison with OIG to receive allegations of research misconduct when they are received via the OIG Hotline.

§ 3022.2 Procedures.

Research institutions that conduct extramural research funded by USDA must foster an atmosphere conducive to research integrity. They must develop or have procedures in place to respond to allegations of research misconduct that ensure:

- (a) Appropriate separations of responsibility for inquiry, investigation, and adjudication;
- (b) Objectivity;
- (c) Due process;
- (d) Whistleblower protection;
- (e) Confidentiality. To the extent possible and consistent with a fair and thorough investigation and as allowed by law, knowledge about the identity

§ 3022.3

of subjects and informants is limited to those who need to know; and

(f) Timely resolution.

§ 3022.3 Inquiry, investigation, and adjudication.

A research institution that conducts extramural research funded by USDA bears primary responsibility for prevention and detection of research misconduct and for the inquiry, investigation, and adjudication of research misconduct allegations reported directly to it. The research institution must perform an inquiry in response to an allegation, and must follow the inquiry with an investigation if the inquiry determines that the allegation or apparent instance of research misconduct has substance. The responsibilities for adjudication must be separate from those for inquiry and investigation. In most instances, USDA will rely on a research institution conducting extramural research to promptly:

(a) Initiate an inquiry into any suspected or alleged research misconduct;

(b) Conduct a subsequent investigation, if warranted;

(c) Acquire, prepare, and maintain appropriate records of allegations of extramural research misconduct and all related inquiries, investigations, and findings; and

(d) Take action to ensure the following:

(1) The integrity of research;

(2) The rights and interests of the subject of the investigation and the public are protected;

(3) The observance of legal requirements or responsibilities including cooperation with criminal investigations; and

(4) Appropriate safeguards for subjects of allegations, as well as informants (see § 3022.6). These safeguards should include timely written notification of subjects regarding substantive allegations made against them; a description of all such allegations; reasonable access to the data and other evidence supporting the allegations; and the opportunity to respond to allegations, the supporting evidence and the proposed findings of research misconduct, if any.

7 CFR Ch. XXX (1-1-13 Edition)

§ 3022.4 USDA Panel to determine appropriateness of research misconduct policy.

Before USDA will rely on a research institution to conduct an inquiry, investigation, and adjudication of an allegation in accordance with this part, the research institution where the research misconduct is alleged must provide the ARIO its policies and procedures related to research misconduct at the institution. The research institution has the option of providing either a written copy of such policies and procedures or a Web site address where such policies and procedures can be accessed. The ARIO to whom the policies and procedures were made available shall convene a panel comprised of the USDA RIO and ARIOs from the Forest Service, the Agricultural Research Service, and the National Institute of Food and Agriculture. The Panel will review the research institution's policies and procedures for compliance with the OSTP Policy and render a decision regarding the research institution's ability to adequately resolve research misconduct allegations. The ARIO will inform the research institution of the Panel's determination that its inquiry, investigation, and adjudication procedures are sufficient. If the Panel determines that the research institution does not have sufficient policies and procedures in place to conduct inquiry, investigation, and adjudication proceedings, or that the research institution is in any way unfit or unprepared to handle the inquiry, investigation, and adjudication in a prompt, unbiased, fair, and independent manner, the ARIO will inform the research institution in writing of the Panel's decision. An appropriate USDA agency, as determined by the Panel, will then conduct the inquiry, investigation, and adjudication of research misconduct in accordance with this part. If an allegation of research misconduct is made regarding extramural research conducted at a Federal research institution (whether USDA or not), it is presumed that the Federal research institution has research misconduct procedures consistent with the OSTP Policy. USDA reserves the right to convene the Panel to assess the sufficiency of a Federal agency's research

Office of Chief Financial Officer, USDA

§ 3022.6

misconduct procedures, should there be any question whether the agency's procedures will ensure a fair, unbiased, equitable, and independent inquiry, investigation, and adjudication process.

§ 3022.5 Reservation of right to conduct subsequent inquiry, investigation, and adjudication.

(a) USDA reserves the right to conduct its own inquiry, investigation, and adjudication into allegations of research misconduct at a research institution conducting extramural research subsequent to the proceedings of the research institution related to the same allegation. This may be necessary if the USDA RIO or ARIIO believes, in his or her sound discretion, that despite the Panel's finding that the research institution in question had appropriate and OSTP-compliant research misconduct procedures in place, the research institution conducting the extramural research at issue:

(1) Did not adhere to its own research misconduct procedures;

(2) Did not conduct research misconduct proceedings in a fair, unbiased, or independent manner; or

(3) Has not completed research misconduct inquiry, investigation, or adjudication in a timely manner.

(b) Additionally, USDA reserves the right to conduct its own inquiry, investigation, and adjudication into allegations of research misconduct at a research institution conducting extramural research subsequent to the proceedings of the research institution related to the same allegation for any other reason that the USDA RIO or ARIIO considers it appropriate to conduct research misconduct proceedings in lieu of the research institution's conducting the extramural research at issue. This right is subject to paragraph (c) of this section.

(c) In cases where the USDA RIO or ARIIO believes it is necessary for USDA to conduct its own inquiry, investigation, and adjudication subsequent to the proceedings of the research institution related to the same allegation, the USDA RIO or ARIIO shall reconvene the Panel, which will determine whether it is appropriate for the relevant USDA agency to conduct the research misconduct proceedings related to the al-

legation(s) of research misconduct. If the Panel determines that it is appropriate for a USDA agency to conduct the proceedings, the ARIIO will immediately notify the research institution in question. The research institution must then promptly provide the relevant USDA agency with documentation of the research misconduct proceedings the research institution has conducted to that point, and the USDA agency will conduct research misconduct proceedings in accordance with the Agency research misconduct procedures.

§ 3022.6 Notification of USDA of allegations of research misconduct.

(a) Research institutions that conduct USDA-funded extramural research must promptly notify OIG and the USDA RIO of all allegations of research misconduct involving USDA funds when the institution inquiry into the allegation warrants the institution moving on to an investigation.

(b) Individuals at research institutions who suspect research misconduct at the institution should report allegations in accordance with the institution's research misconduct policies and procedures. Anyone else who suspects that researchers or research institutions performing federally-funded research may have engaged in research misconduct is encouraged to make a formal allegation of research misconduct to OIG.

(1) OIG may be notified using any of the following methods:

(i) Via the OIG Hotline: Telephone: (202) 690-1622, (800) 424-9121, (202) 690-1202 (TDD).

(ii) E-mail: usda_hotline@oig.usda.gov.

(iii) U.S. Mail: United States Department of Agriculture, Office of Inspector General, P.O. Box 23399, Washington, DC 20026-3399.

(2) The USDA RIO may be reached at: USDA Research Integrity Officer, 214W Whitten Building, Washington, DC 20250; telephone: 202-720-5923; E-mail: researchintegrity@usda.gov.

(c) To the extent known, the following details should be included in any formal allegation:

§ 3022.7

(1) The name of the research projects involved, the nature of the alleged misconduct, and the names of the individual or individuals alleged to be involved in the misconduct;

(2) The source or sources of funding for the research project or research projects involved in the alleged misconduct;

(3) Important dates;

(4) Any documentation that bears upon the allegation; and

(5) Any other potentially relevant information.

(d) Safeguards for informants give individuals the confidence that they can bring allegations of research misconduct made in good faith to the attention of appropriate authorities or serve as informants to an inquiry or an investigation without suffering retribution. Safeguards include protection against retaliation for informants who make good faith allegations, fair and objective procedures for the examination and resolution of allegations of research misconduct, and diligence in protecting the positions and reputations of those persons who make allegations of research misconduct in good faith. The identity of informants who wish to remain anonymous will be kept confidential to the extent permitted by law or regulation.

§ 3022.7 Notification of ARIO during an inquiry or investigation.

(a) Research institutions that conduct USDA-funded extramural research must promptly notify the ARIO should the institution become aware during an inquiry or investigation that:

(1) Public health or safety is at risk;

(2) The resources, reputation, or other interests of USDA are in need of protection;

(3) Research activities should be suspended;

(4) Federal action may be needed to protect the interest of a subject of the investigation or of others potentially affected;

(5) A premature public disclosure of the inquiry into or investigation of the allegation may compromise the process;

(6) The scientific community or the public should be informed; or

7 CFR Ch. XXX (1-1-13 Edition)

(7) There is reasonable indication of possible violations of civil or criminal law.

(b) If research misconduct proceedings reveal behavior that may be criminal in nature at any point during the proceedings, the institution must promptly notify the ARIO.

§ 3022.8 Communication of research misconduct policies and procedures.

Institutions that conduct USDA-funded extramural research are to maintain and effectively communicate to their staffs policies and procedures relating to research misconduct, including the guidelines in this part. The institution is to inform their researchers and staff members who conduct USDA-funded extramural research when and under what circumstances USDA is to be notified of allegations of research misconduct, and when and under what circumstances USDA is to be updated on research misconduct proceedings.

§ 3022.9 Documents required.

(a) A research institution that conducts USDA-funded extramural research must maintain the following documents related to an allegation of research misconduct at the research institution:

(1) A written statement describing the original allegation;

(2) A copy of the formal notification presented to the subject of the allegation;

(3) A written report describing the inquiry stage and its outcome including copies of all supporting documentation;

(4) A description of the methods and procedures used to gather and evaluate information pertinent to the alleged misconduct during inquiry and investigation stages;

(5) A written report of the investigation, including the evidentiary record and supporting documentation;

(6) A written statement of the findings; and

(7) If applicable, a statement of recommended corrective actions, and any response to such a statement by the subject of the original allegation, and/or other interested parties, including any corrective action plan.

(b) The research institution must retain the documents specified in paragraph (a) of this section for at least 3 years following the final adjudication of the alleged research misconduct.

§ 3022.10 Reporting to USDA.

Following completion of an investigation into allegations of research misconduct, the institution conducting extramural research must provide to the ARIO a copy of the evidentiary record, the report of the investigation, recommendations made to the institution's adjudicating official, the adjudicating official's determination, the institution's corrective action taken or planned, and the written response of the individual who is the subject of the allegation to any recommendations.

§ 3022.11 Research records and evidence.

(a) A research institution that conducts extramural research supported by USDA funds, as the responsible legal entity for the USDA-supported research, has a continuing obligation to create and maintain adequate records (including documents and other evidentiary matter) as may be required by any subsequent inquiry, investigation, finding, adjudication, or other proceeding.

(b) Whenever an investigation is initiated, the research institution must promptly take all reasonable and practical steps to obtain custody of all relevant research records and evidence as may be necessary to conduct the research misconduct proceedings. This must be accomplished before the research institution notifies the researcher/respondent of the allegation, or immediately thereafter.

(c) The original research records and evidence taken into custody by the research institution shall be inventoried and stored in a secure place and manner. Research records involving raw data shall include the devices or instruments on which they reside. However, if deemed appropriate by the research institution or investigator, research data or records that reside on or in instruments or devices may be copied and removed from those instruments or devices as long as the copies are complete, accurate, and have sub-

stantially equivalent evidentiary value as the data or records have when the data or records reside on the instruments or devices. Such copies of data or records shall be made by a disinterested, qualified technician and not by the subject of the original allegation or other interested parties. When the relevant data or records have been removed from the devices or instruments, the instruments or devices need not be maintained as evidence.

§ 3022.12 Remedies for noncompliance.

USDA agencies' implementation procedures identify the administrative actions available to remedy a finding of research misconduct. Such actions may include the recovery of funds, correction of the research record, debarment of the researcher(s) that engaged in the research misconduct, proper attribution, or any other action deemed appropriate to remedy the instance(s) of research misconduct. The agency should consider the seriousness of the misconduct, including, but not limited to, the degree to which the misconduct was knowingly conducted, intentional, or reckless; was an isolated event or part of a pattern; or had significant impact on the research record, research subjects, other researchers, institutions, or the public welfare. In determining the appropriate administrative action, the appropriate agency must impose a remedy that is commensurate with the infraction as described in the finding of research misconduct.

§ 3022.13 Appeals.

(a) If USDA relied on an institution to conduct an inquiry, investigation, and adjudication, the alleged person(s) should first follow the institution's appeal policy and procedures.

(b) USDA agencies' implementation procedures identify the appeal process when a finding of research misconduct is elevated to the agency.

§ 3022.14 Relationship to other requirements.

Some of the research covered by this part also may be subject to regulations of other governmental agencies (e.g., a university that receives funding from a USDA agency and also under a grant from another Federal agency). If more

Pt. 3052

7 CFR Ch. XXX (1-1-13 Edition)

than one agency of the Federal Government has jurisdiction, USDA will cooperate with the other Agency(ies) in designating a lead agency. When USDA is not the lead agency, it will rely on the lead agency following its policies and procedures in determining whether there is a finding of research misconduct. Further, USDA may, in consultation with the lead agency, take action to protect the health and safety of the public, to promote the integrity of the USDA-supported research and research process, or to conserve public funds. When appropriate, USDA will seek to resolve allegations jointly with the other agency or agencies.

PART 3052—AUDITS OF STATES, LOCAL GOVERNMENTS, AND NON-PROFIT ORGANIZATIONS

Subpart A—General

- Sec.
- 3052.100 Purpose.
- 3052.105 Definitions.

Subpart B—Audits

- 3052.200 Audit requirements.
- 3052.205 Basis for determining Federal awards expended.
- 3052.210 Subrecipient and vendor determinations.
- 3052.215 Relation to other audit requirements.
- 3052.220 Frequency of audits.
- 3052.225 Sanctions.
- 3052.230 Audit costs.
- 3052.235 Program-specific audits.

Subpart C—Auditees

- 3052.300 Auditee responsibilities.
- 3052.305 Auditor selection.
- 3052.310 Financial statements.
- 3052.315 Audit findings follow-up.
- 3052.320 Report submission.

- 3052.505 Audit reporting.
- 3052.510 Audit findings.
- 3052.515 Audit working papers.
- 3052.520 Major program determination.
- 3052.525 Criteria for Federal program risk.
- 3052.530 Criteria for a low-risk auditee.

AUTHORITY: 5 U.S.C. 301

SOURCE: 62 FR 45949, Aug. 29, 1997, unless otherwise noted.

Subpart A—General

§ 3052.100 Purpose.

This part sets forth standards for obtaining consistency and uniformity among Federal agencies for the audit of non-Federal entities expending Federal awards.

§ 3052.105 Definitions.

Audit finding means deficiencies which the auditor is required by § 3052.510(a) to report in the schedule of findings and questioned costs.

Auditee means any non-Federal entity that expends Federal awards which must be audited under this part.

Auditor means an auditor, that is a public accountant or a Federal, State or local government audit organization, which meets the general standards specified in generally accepted government auditing standards (GAGAS). The term auditor does not include internal auditors of non-profit organizations.

CFDA number means the number assigned to a Federal program in the Catalog of Federal Domestic Assistance (CFDA).

Cluster of programs means a grouping of closely related programs that share common compliance requirements. The types of clusters of programs are research and development (R&D), student financial aid (SFA), and other clusters. "Other clusters" are as defined by the Office of Management and Budget (OMB) in the compliance supplement or as designated by a State for Federal awards the State provides to its subrecipients that meet the definition of a cluster of programs. When designating an "other cluster," a State shall identify the Federal awards included in the cluster and advise the subrecipients of compliance requirements applicable to the cluster, consistent with § 3052.400(d)(1) and § 3052.400(d)(2), respectively. A cluster of programs shall be considered as one program for determining major programs, as described in § 3052.520, and, with the exception of R&D as described in § 3052.200(c),
