

**§ 3550.64**

locality. Subject to the following, this limit is based on cost data plus the market value of an improved lot, or the State Housing Authority limits, whichever the State Director determines most appropriately reflects the value of modest housing for the area:

(i) The cost of the structure is based upon the cost to construct a modest home and is obtained by RHS from a nationally recognized residential cost provider.

(ii) The market value of an improved site (without the dwelling) is based upon current sales data for typical housing sites and reasonable and typical costs of site improvements.

(iii) The applicable State Housing Authority limit will only be considered if it is within 10 percent of the cost data plus the market value of an improved lot.

(iv) The area loan limit may not exceed the applicable local HUD section 203(b) limit.

(v) All area loan limit data will be updated at least annually and is available in any Rural Development office.

(2) The maximum loan limit calculated under paragraph (a)(1) will be reduced in the following situations:

(i) When the applicant owns the site or is purchasing the site at a sales price below market value, the market value of the lot will be deducted from the maximum loan limit, and

(ii) When an applicant is receiving a housing grant or other form of affordable housing assistance for purposes other than closing costs, the amount(s) of such grants and affordable housing assistance will be deducted from the maximum loan limit.

(3) The maximum loan limit for self-help housing will be calculated by adding the total of the market value of the lot (including reasonable and typical costs of site development), the cost of construction, and the value of sweat equity. The total of these three factors cannot exceed the limit established in paragraph (a)(1) of this section.

(b) *Market value limitation.* (1) The market value limitation is 100 percent of market value for existing housing and for new dwellings for which RHS will receive adequate documentation of construction quality and the source of

**7 CFR Ch. XXXV (1-1-13 Edition)**

such documentation is acceptable to RHS.

(2) The market value limitation is 90 percent of market value for new dwellings for which adequate documentation of construction quality is not available.

(3) The market value limitation can be increased by:

(i) Up to one percent, if RHS makes a subsequent loan for closing costs only, in conjunction with the sale of an REO property or an assumption.

(ii) The amount necessary to make a subsequent loan for repairs necessary to protect the Government's interest, and reasonable closing costs.

(iii) The amount necessary to refinance an existing borrower's RHS loans, plus closing costs associated with the new loan.

**§ 3550.64 Down payment.**

Elderly families must use any net family assets in excess of \$20,000 towards a down payment on the property. Non-elderly families must use net family assets in excess of \$15,000 towards a down payment on the property. Applicants may contribute assets in addition to the required down payment to further reduce the amount to be financed.
