Federal Crop Insurance Corporation, USDA

§457.105

The extra long staple cotton crop insurance provisions.

The extra long staple cotton crop insurance provisions for the 2012 and succeeding crop years are as follows:

United States Department of Agriculture
Federal Crop Insurance Corporation

ELS Cotton Crop Provisions

1. Definitions

Cotton. Varieties identified as Extra Long Staple (ELS) cotton and American Upland (AUP) cotton if ELS cotton is destroyed by
an insured cause and acreage is replanted to AUP cotton.

ELS cotton. Extra Long Staple cotton (also called Pima cotton, American-Egyptian cotton, and American Pima cotton).

Harvest. The removal of the seed cotton from the open cotton boll, or the severance of the open cotton boll from the stalk by either manual or mechanical means.

Mature ELS cotton. ELS cotton that can be harvested either manually or mechanically.

Planted acreage. In addition to the definition contained in the Basic Provisions, cotton must be planted in rows, unless otherwise provided by the Special Provisions, actuarial documents, or by written agreement. The yield conversion factor normally applied to non-irrigated skip-row cotton acreage will not be used if the land between the rows of cotton is planted to any other spring planted crop.

Production guarantee. The number of pounds determined by multiplying the approved yield per acre by any applicable yield conversion factor for non-irrigated skip-row planting patterns, and multiplying the result by the coverage level percentage you elect.

Replanting. Performing the cultural practices necessary to replace the ELS cotton seed, and replacing the seed with either ELS or AUP cotton seed in the insured acreage with the expectation of growing a successful crop.

Skip-row. A planting pattern that:
(1) Consists of alternating rows of cotton and fallow land or land planted to another crop the previous fall; and
(2) Qualifies as a skip-row planting pattern as defined by the Farm Service Agency (FSA) or a successor agency.

5. Insured Crop
In accordance with section 8 of the Basic Provisions (§ 457.8), the crop insured will be all the cotton lint in the county for which premium rates are provided by the actuarial documents:
(a) In which you have a share; and
(b) That is not (unless allowed by the Special Provisions or by a written agreement):
(1) Planted into an established grass or legume;
(2) Interplanted with another spring planted crop;
(3) Grown on acreage from which a hay crop was harvested in the same calendar year unless the acreage is irrigated; or
(4) Grown on acreage on which a small grain crop reached the heading stage in the same calendar year unless the acreage is irrigated or adequate measures are taken to terminate the small grain crop prior to heading and less than fifty percent (50%) of the small grain plants reach the heading stage.

6. Insurable Acreage
In accordance with section 9 of the Basic Provisions (§ 457.8):
(a) The acreage insured will be only the land occupied by the rows of cotton when a skip row planting pattern is utilized; and
(b) Any acreage of the insured crop damaged before the final planting date, to the extent that a majority of producers in the area would not be replanted unless we agree that it is not practical to replant.

7. Insurance Period
In accordance with the provisions of section 11 of the Basic Provisions (§ 457.8), insurance is provided only against the following causes of loss which occur within the insurance period:
(a) Adverse weather conditions;
(b) Fire;
(c) Insects, but not damage due to insufficient or improper application of pest control measures;
(d) Plant disease, but not damage due to insufficient or improper application of disease control measures;
(e) Wildlife;
(f) Earthquake;
(g) Volcanic eruption; or
(h) Failure of irrigation water supply, if applicable, due to an unavoidable cause of loss occurring within the insurance period.
Federal Crop Insurance Corporation, USDA § 457.105

9. Duties in the Event of Damage or Loss
   (a) In addition to your duties under section 14 of the Basic Provisions (§ 457.8), in the event of damage or loss:
      (1) You must give us notice if you intend to replant any acreage originally planted to ELS cotton to AUP cotton;
      (2) The cotton stalks must remain intact for our inspection; and
      (3) If you initially discover damage to any insured acreage within 15 days of harvest, or during harvest, you must leave representative samples of the unharvested crop for our inspection. The samples must be at least 10 feet wide and extend the entire length of the field in the unit.
   (b) The stalks must not be destroyed, and required samples must not be harvested, until the earlier of our inspection or 15 days after harvest of the balance of the unit is completed and written notice of probable loss is given to us.

10. Settlement of Claim
   (a) We will determine your loss on a unit basis. In the event you are unable to provide records of production:
      (1) For any optional unit, we will combine all optional units for which acceptable records of production were not provided; or
      (2) For any basic unit, we will allocate any commingled production to such units in proportion to our liability on the harvested acreage for each unit.
   (b) In the event of loss or damage covered by this policy, we will settle your claim on any unit by:
      (1) Multiplying the insured acreage by the production guarantee;
      (2) Subtracting from this the total production to count;
      (3) Multiplying the remainder by your price election; and
      (4) Multiplying this result by your share.
   (c) The total production to count (in pounds) from all insurable acreage on the unit will include:
      (1) All appraised production as follows:
          (A) That is abandoned;
          (B) Put to another use without our consent;
          (C) Damaged solely by uninsured causes;
          (D) For which you fail to provide records of production that are acceptable to us; or
          (E) On which the cotton stalks are destroyed in violation of section 9;
      (ii) Production lost due to uninsured causes;
      (iii) Unharvested production (mature unharvested production may be adjusted for quality deficiencies in accordance with subsection:
          (A) 10(d) and (e) if it is mature ELS cotton;
          or
          (B) 10(f) if it is AUP cotton insured under these crop provisions); and
      (iv) Potential production on insured acreage you want to put to another use or you wish to abandon or no longer care for. If you and we agree on the appraised amount of production. Upon such agreement the insurance period for that acreage will end if you put the acreage to another use or abandon the crop. If agreement on the appraised amount of production is not reached:
          (A) If you do not elect to continue to care for the crop, we may give you consent to put the acreage to another use if you agree to leave intact, and provide sufficient care for, representative samples of the crop in locations acceptable to us (The amount of production to count for such acreage will be based on the harvested production or appraisals from the samples at the time harvest should have occurred. If you do not leave the required samples intact, or you fail to provided sufficient care for the samples, our appraisal made prior to giving you consent to put the acreage to another use will be used to determine the amount of production to count.); or
          (B) If you elect to continue to care for the crop, the amount of production to count for the acreage will be the harvested production, or our reappraisal if additional damage occurs and the crop is not harvested; and
      (2) All harvested production from the insurable acreage, including any mature cotton retrieved from the ground.
   (d) Mature ELS cotton production may be adjusted for quality when production has been damaged by insured causes. Such production to count will be reduced if Price A is less than 85 percent of Price B.
      (1) Price B is defined as the Extra Long Staple Cotton National Average Loan Rate determined by FSA, or as specified in the Special Provisions.
      (2) Price A is defined as the loan value per pound for the bale determined in accordance with the FSA Schedule of Premiums and Discounts for the applicable crop year, or as specified in the Special Provisions.
   (e) If eligible for quality adjustment, the amount or production to be counted will be determined by multiplying the number of pounds of such production by the factor derived from dividing Price A by 85 percent of Price B.
   (f) Mature AUP cotton harvested or appraised from acreage originally planted to ELS cotton in the same growing season will be reduced by the factor obtained by dividing the price per pound for AUP cotton by the price per pound for ELS cotton. The prices used for AUP and ELS cotton will be calculated using the Upland Cotton National
§ 457.106 Texas citrus tree crop insurance provisions.

The Texas Citrus Tree Crop Insurance Provisions for the 2011 and succeeding crop years are as follows:

**UNITED STATES DEPARTMENT OF AGRICULTURE**

Federal Crop Insurance Corporation

Reinsured policies

(Appropriate title for insurance provider)

Both FCIC and Reinsured Policies

**Texas Citrus Tree Crop Provisions**

1. Definitions

*Bud union.* The location on the tree trunk where a bud from one tree variety is grafted onto root stock of another variety.

*Crop.* Specific groups of citrus fruit trees as listed in the Special Provisions.

*Crop year.* For the 1998 crop year only, a period of time that begins on June 1, 1997, and ends on November 29, 1998. For all other crop years, a period of time that begins on November 21 of the previous calendar year prior to the year the trees normally bloom, and ends on November 20 of the following calendar year.

2. Unit Division

(a) A basic unit, as defined in section 1 of the Basic Provisions, will be divided into additional basic units by each citrus crop designated in the Special Provisions.

(b) Sections 34(b)(1), (3), and (4) of the Basic Provisions are not applicable.

(c) Provisions in the Basic Provisions that allow optional units by irrigated and non-irrigated practices are not applicable.

(d) Instead of establishing optional units by section, section equivalent, or FSA farm serial number optional units may be established if each optional unit is located on non-contiguous land.

3. Insurance Guarantees, Coverage Levels, and Prices for Determining Indemnities

(a) In lieu of the requirement of section 3 (Insurance Guarantees, Coverage Levels, and Prices for Determining Indemnities) of the Basic Provisions (§ 457.8), that prohibits you from selecting more than one coverage level for each insured crop, you may select a different coverage level for each crop designated in the Special Provisions that you elect to insure.
