Grain Inspection, Packers and Stockyard Admin. (FGIS), USDA

§ 868.260

be maintained by the Federal Grain Inspection Service, U.S. Department of Agriculture, and shall be available for reference in all inspection offices that inspect and grade rice.

§ 868.256 Milling requirements.

In determining milling yield (see § 868.252(g)) in brown rice for processing, the degree of milling shall be equal to, or better than, that of the interpretive line sample for “well-milled” rice.

§ 868.257 Milling yield determination.

Milling yield shall be determined by the use of an approved device in accordance with procedures prescribed in FGIS instructions. For the purpose of this paragraph, “approved device” shall include the McGill Miller No. 3 and any other equipment that is approved by the Administrator as giving equivalent results.

NOTE: Milling yield shall not be determined when the moisture content of the brown rice for processing exceeds 18.0 percent.

§ 868.258 Moisture.

Water content in brown rice for processing as determined by an approved device in accordance with procedures prescribed in FGIS instructions. For the purpose of this paragraph, “approved device” shall include the Motomco Moisture Meter and any other equipment that is approved by the Administrator as giving equivalent results.

§ 868.259 Percentages.

(a) Rounding. Percentages are determined on the basis of weight and are rounded as follows:

(1) When the figure to be rounded is followed by a figure greater than or equal to 5, round to the next higher figure; e.g., report 6.36 as 6.4, 0.35 as 0.4, and 2.45 as 2.5.

(2) When the figure to be rounded is followed by a figure less than 5, retain the figure, e.g., report 8.34 as 8.3 and 1.22 and 1.2.

(b) Recording. All percentages, except for milling yield, are stated in whole and tenth percent to the nearest whole percent. Milling yield is stated to the nearest whole percent.

§ 868.260 Information.

Requests for the Rice Inspection Handbook, Equipment Handbook, or for information concerning approved devices and procedures, criteria for approved devices, and requests for approval of devices should be directed to the U.S. Department of Agriculture, Federal Grain Inspection Service, P.O. Box 96454, Washington, DC 20090–6454, or any field office or cooperator.

U.S. Sample grade shall be brown rice for processing which (a) does not meet the requirements for any of the grades from U.S. No. 1 to U.S. No. 5, inclusive; (b) contains more than 14.5 percent of moisture; (c) is musty, or sour, or heating; (d) has any commercially objectionable foreign odor; (e) contains more than 0.2 percent of related material or more than 0.1 percent of unrelated material; (f) contains two or more live weevils or other live insects; or (g) is otherwise of distinctly low quality.

1 For the special grade Parboiled brown rice for processing, see § 868.263(a).
2 For the special grade Glutinous brown rice for processing, see § 868.263(c).
3 Plates should be used for southern production rice and sieves should be used for western production rice, but any device or method which gives equivalent results may be used.
4 These limits do not apply to the class Mixed Brown Rice for Processing.

§ 868.262 Grade designation and other certificate information.

(a) *Brown rice for processing.* The grade designation for all classes of Brown rice for processing shall be included on the certificate grade-line in the following order:

1. The letters “U.S.”;
2. The number of the grade or the words “Sample grade,” as warranted;
3. The words “or better,” when applicable and requested by the applicant prior to inspection;
4. The class; and
5. Each applicable special grade (see § 868.264).

(b) *Mixed Brown rice for Processing information.* For the class Mixed Brown rice for processing, the following information shall be included in the Results section of the certificate in the following order:

1. The percentage of whole kernels of each type in the order of predominance, when applicable; and
2. The percentage of broken kernels of each type in the order of predominance, when applicable; and
3. The percentage of seeds, related material, and unrelated material.

(c) *Broken kernels.* Broken kernels, other than long grain in Mixed Brown rice for processing shall be certified as “medium or short grain.”

[74 FR 55442, Oct. 28, 2009]

§ 868.263 Special grades and special grade requirements.

A special grade, when applicable, is supplemental to the grade assigned under § 868.262. Such special grades for brown rice for processing are established and determined as follows:

(a) *Parboiled brown rice for processing.* Parboiled brown rice for processing shall be rice in which the starch has been gelatinized by soaking, steaming, and drying. Grades U.S. Nos. 1 to 5, inclusive, shall contain not more than 10.0 percent of ungelatinized kernels. Grades U.S. No. 1 and U.S. No. 2 shall
