§ 20.2203

(3) Levels of radiation or concentrations of radioactive material in—
   (i) A restricted area in excess of any applicable limit in the license; or
   (ii) An unrestricted area in excess of 10 times any applicable limit set forth in this part or in the license (whether or not involving exposure of any individual in excess of the limits in § 20.1301); or
   (iii) A shallow-dose equivalent to the skin or extremities of 250 rads (2.5 Gy) or more; or
   (2) The release of radioactive material, inside or outside of a restricted area, so that, had an individual been present for 24 hours, the individual could have received an intake five times the annual limit on intake (the provisions of this paragraph do not apply to locations where personnel are not normally stationed during routine operations, such as hot-cells or process enclosures).

(a) Reportable events. In addition to the notification required by § 20.2202, each licensee shall submit a written report within 30 days after learning of any of the following occurrences:
   (1) Any incident for which notification is required by § 20.2202; or
   (2) Doses in excess of any of the following:
      (i) The occupational dose limits for adults in § 20.1201; or
      (ii) The occupational dose limits for a minor in § 20.1207; or
      (iii) The limits for an embryo/fetus of a declared pregnant woman in § 20.1208; or
      (iv) The limits for an individual member of the public in § 20.1301; or
      (v) Any applicable limit in the license; or
      (vi) The ALARA constraints for air emissions established under § 20.1101(d); or
   (3) Levels of radiation or concentrations of radioactive material in—
      (i) A restricted area in excess of any applicable limit in the license; or
      (ii) An unrestricted area in excess of 10 times any applicable limit set forth in this part or in the license (whether or not involving exposure of any individual in excess of the limits in § 20.1301); or
   (4) For licensees subject to the provisions of EPA’s generally applicable environmental radiation standards in 40 CFR part 190, levels of radiation or releases of radioactive material in excess of those standards, or of license conditions related to those standards.
§ 20.2204 Reports of planned special exposures.

The licensee shall submit a written report to the Administrator of the appropriate NRC Regional Office listed in appendix D to part 20 within 30 days following any planned special exposure conducted in accordance with §20.1206, informing the Commission that a planned special exposure was conducted and indicating the date the planned special exposure occurred and the information required by §20.2105.

§ 20.2205 Reports to individuals of exceeding dose limits.

When a licensee is required by §§20.2203 or 20.2204 to report to the Commission any exposure of an identified occupationally exposed individual, or an identified member of the public, to radiation or radioactive material, the licensee shall also provide the individual a report on his or her exposure data included in the report to Commission. This report must be transmitted no later than the transmittal to the Commission.
