(f) For the purpose of verifying the accuracy of any energy information requested, acquired, or collected by the DOE, the Administrator, or any officer or employee duly designated by him, upon presenting appropriate credentials and a written notice from the Administrator to the owner, operator, or agent in charge, may—

(1) Enter, at reasonable times, any business premise of facility; and

(2) Inspect, at reasonable times and in a reasonable manner, any such premise or facility, inventory and sample any stock of energy resources therein, and examine and copy books, records, papers, or other documents, relating to any such energy information. Such written notice shall reasonably describe the premise or facility to be inspected, the stock to be inventoried or sampled, or the books, records, papers or other documents to be examined or copied.

§ 207.4 Confidentiality of energy information.

(a) Information obtained by the DOE under authority of ESECA shall be available to the public in accordance with the provisions of part 202 of this chapter. Upon a showing satisfactory to the Administrator by any person that any energy information obtained under this subpart from such person would, if made public, divulge methods or processes entitled to protection as trade secrets or other proprietary information of such person, such information, or portion thereof, shall be deemed confidential in accordance with the provisions of section 1905 of title 18, United States Code; except that such information, or part thereof, shall not be deemed confidential pursuant to that section for purposes of disclosure, upon request, to (1) any delegate of the DOE for the purpose of carrying out ESECA or the EPAA, (2) the Attorney General, the Secretary of the Interior, the Federal Trade Commission, the Federal Power Commission, or the General Accounting Office, when necessary to carry out those agencies’ duties and responsibilities under ESECA and other statutes, and (3) the Congress, or any Committee of Congress upon request of the Chairman.

(b) Whenever the Administrator requests reports of energy information under this subpart, he may specify (in the rule, order or questionnaire or other means by which he has requested such reports) the nature of the showing required to be made in order to satisfy DOE that certain energy information contained in such reports warrants confidential treatment in accordance with this section. He shall, to the maximum extent practicable, either before or after requesting reports, by ruling or otherwise, inform respondents providing energy information pursuant to this subpart of whether such information will be made available to the public pursuant to requests under the Freedom of Information Act (5 U.S.C. 552).

§ 207.5 Violations.

Any practice that circumvents or contravenes or results in a circumvention or contravention of the requirements of any provision of this subpart or any order issued pursuant thereto is a violation of the DOE regulations stated in this subpart.

§ 207.6 Notice of probable violation and remedial order.

(a) Purpose and scope. (1) This section establishes the procedures for determining the nature and extent of violations of this subpart and the procedures for issuance of a notice of probable violation, a remedial order or a remedial order for immediate compliance.

(2) When the DOE discovers that there is reason to believe a violation of any provision of this subpart, or any order issued thereunder, has occurred, is continuing or is about to occur, the DOE may conduct proceedings to determine the nature and extent of the violation and may issue a remedial order thereafter. The DOE may commence such proceeding by serving a notice of probable violation or by issuing a remedial order for immediate compliance.

(b) Notice of probable violation. (1) The DOE may begin a proceeding under this subpart by issuing a notice of probable violation if the DOE has reason to believe that a violation has occurred, is continuing, or is about to occur.
