§ 851.24 Functional areas.

(a) Contractors must have a structured approach to their worker safety and health program which at a minimum, include provisions for the following applicable functional areas in their worker safety and health program: construction safety; fire protection; firearms safety; explosives safety; pressure safety; electrical safety; industrial hygiene; occupational medicine; biological safety; and motor vehicle safety.

(b) In implementing the structured approach required by paragraph (a) of this section, contractors must comply with the applicable standards and provisions in appendix A of this part, entitled “Worker Safety and Health Functional Areas.”

§ 851.25 Training and information.

(a) Contractors must develop and implement a worker safety and health training and information program to ensure that all workers exposed or potentially exposed to hazards are provided with the training and information on that hazard in order to perform their duties in a safe and healthful manner.

(b) The contractor must provide:

(1) Training and information for new workers, before or at the time of initial assignment to a job involving exposure to a hazard;

(2) Periodic training as often as necessary to ensure that workers are adequately trained and informed; and

(3) Additional training when safety and health information or a change in workplace conditions indicates that a new or increased hazard exists.

(c) Contractors must provide training and information to workers who have worker safety and health program responsibilities that is necessary for them to carry out those responsibilities.

§ 851.26 Recordkeeping and reporting.

(a) Recordkeeping. Contractors must:

(1) Establish and maintain complete and accurate records of all hazard inventory information, hazard assessments, exposure measurements, and exposure controls.

(2) Ensure that the work-related injuries and illnesses of its workers and
