

(2) *Aggregation by type.* The aggregation requirement in paragraph (d)(1) of this section applies separately to the Type III and Type V securities held by a bank.

(e) *Limit on investment company holdings—(1) General.* In calculating the amount of its investment in investment company shares under this part, a bank shall use reasonable efforts to calculate and combine its pro rata share of a particular security in the portfolio of each investment company with the bank's direct holdings of that security. The bank's direct holdings of the particular security and the bank's pro rata interest in the same security in the investment company's portfolio may not, in the aggregate, exceed the investment limitation that would apply to that security.

(2) *Alternate limit for diversified investment companies.* A national bank may elect not to combine its pro rata interest in a particular security in an investment company with the bank's direct holdings of that security if:

(i) The investment company's holdings of the securities of any one issuer do not exceed 5 percent of its total portfolio; and

(ii) The bank's total holdings of the investment company's shares do not exceed the most stringent investment limitation that would apply to any of the securities in the company's portfolio if those securities were purchased directly by the bank.

§ 1.5 Safe and sound banking practices; credit information required.

(a) A national bank shall adhere to safe and sound banking practices and the specific requirements of this part in conducting the activities described in § 1.3. The bank shall consider, as appropriate, the interest rate, credit, liquidity, price, foreign exchange, transaction, compliance, strategic, and reputation risks presented by a proposed activity, and the particular activities undertaken by the bank must be appropriate for that bank.

(b) In conducting these activities, the bank shall determine that there is adequate evidence that an obligor possesses resources sufficient to provide for all required payments on its obligations, or, in the case of securities

deemed to be investment securities on the basis of reliable estimates of an obligor's performance, that the bank reasonably believes that the obligor will be able to satisfy the obligation.

(c) Each bank shall maintain records available for examination purposes adequate to demonstrate that it meets the requirements of this part. The bank may store the information in any manner that can be readily retrieved and reproduced in a readable form.

§ 1.6 Convertible securities.

A national bank may not purchase securities convertible into stock at the option of the issuer.

§ 1.7 Securities held in satisfaction of debts previously contracted; holding period; disposal; accounting treatment; non-speculative purpose.

(3) To avoid loss in connection with a debt previously contracted.

(b) *Holding period.* A national bank holding securities pursuant to paragraph (a) of this section may do so for a period not to exceed five years from the date that ownership of the securities was originally transferred to the bank. The OCC may extend the holding period for up to an additional five years if a bank provides a clearly convincing demonstration as to why an additional holding period is needed.

(c) *Accounting treatment.* A bank shall account for securities held pursuant to paragraph (a) of this section in accordance with Generally Accepted Accounting Principles.

(d) *Non-speculative purpose.* A bank may not hold securities pursuant to paragraph (a) of this section for speculative purposes.
