§ 614.4245 Collateral evaluation policies.

(a) The board of directors of each Farm Credit System institution that engages in lending or leasing secured by collateral shall adopt well-defined and effective collateral evaluation policies and standards, that comply with the regulations in this subpart, to ensure that collateral evaluations are:

(1) Sufficiently descriptive and detailed to provide ample support to the institution’s related credit decisions;

(2) Performed based on criteria established for the purpose of determining the circumstances under which collateral evaluations will be required and when they will be required. Such criteria must, at a minimum:

(i) Establish when an institution will require a collateral appraisal completed under the USPAP rather than a collateral valuation; and

(ii) Take into account such factors as market trends, market volatility, and various types of credit, loan servicing, collection, and liquidation actions; and

(2) Be presented in a written format;

(3) Consider the purpose for which the property will be used and the property’s highest and best use, if different from the intended use;

(4) Be sufficiently descriptive to enable the reader to ascertain the reasonableness of the estimated market value and the rationale for the estimate;

(5) Provide sufficient detail (including an identification and description of the property) and depth of analysis to reflect the relevant characteristics and complexity of the subject property;

(6) Analyze and report, as appropriate, for real, intangible, and/or personal property, on:

(i) The current income producing capacity of the property;

(ii) A reasonable marketing period for the property;

(iii) The current market conditions and trends that will affect projected income, to the extent such conditions will affect the value of the property;

(iv) The appropriate deductions and discounts as they would apply to the property, including but not limited to, those based on the condition of the property, as well as the specialization of the operation and property; and

(v) Potential liabilities, including those associated with any hazardous waste or other environmental concerns; and

(7) Include in the evaluation report a certification that the evaluation was not based on a requested minimum valuation or specific valuation or approval of a loan.
