Office of the Secretary, DOT § 382.51

What requirements must carriers meet concerning the accessibility of airport facilities?

(a) As a carrier, you must comply with the following requirements with respect to all terminal facilities you own, lease, or control at a U.S. airport:

(1) You must ensure that terminal facilities providing access to air transportation are readily accessible to and usable by individuals with disabilities, including individuals who use wheelchairs. You are deemed to comply with this obligation if the facilities meet requirements applying to places of public accommodation under Department of Justice (DOJ) regulations implementing Title III of the Americans with Disabilities Act (ADA).

(2) With respect to any situation in which boarding and deplaning by level-entry loading bridges or accessible passenger lounges to and from an aircraft is not available, you must ensure that there is an accessible route between the gate and the area from which aircraft are boarded (e.g., the tarmac) in a situation in which level-entry boarding page to all WCAG 2.0 Level AA success criteria would constitute an undue burden or fundamentally alter the information or functionality provided by that page.

(4) You must assist prospective passengers who indicate that they are unable to use your Web site due to a disability and contact you through other channels (e.g., by telephone or at the ticket counter) as follows:

(i) Disclose Web-based discount fares to the passenger if his or her itinerary qualifies for the discounted fare.

(ii) Provide Web-based amenities to the passenger, such as waiving any fee applicable to making a reservation or purchasing a ticket using a method other than your Web site (e.g., by telephone), unless the fee applies to other customers purchasing the same fare online.

(d) As a carrier covered under paragraph (c) of this section, you must provide a mechanism on your primary Web site for persons with disabilities to request disability accommodation services for future flights, including but not limited to wheelchair assistance, seating accommodation, escort assistance for a visually impaired passenger, and stowage of an assistive device no later than December 12, 2015. You may require individuals who request accommodations using this mechanism to provide contact information (e.g., name, daytime phone, evening phone, and email address) for follow-up by your customer service department or medical desk.

(e) As a carrier covered under paragraph (c) of this section, you must provide a disclaimer activated when a user clicks a link on your primary Web site to an external Web site or to third-party software informing the user that the Web site or software may not follow the same accessibility policies no later than December 12, 2016.

§ 382.53 What information must carriers give individuals with a vision or hearing impairment at airports?

(a)(1) As a U.S. carrier, you must ensure that passengers with a disability who identify themselves as persons needing visual or hearing assistance have prompt access to the same information provided to other passengers at each gate, ticketing area, and customer service desk that you own, lease, or control at any U.S. or foreign airport. In the case of foreign carriers, this requirement applies only to terminal facilities that serve flights covered by §382.7 of this part.

(b) As a carrier, you must ensure that passengers with a disability can readily use all terminal facilities you own, lease, or control at a foreign airport. In the case of foreign carriers, this requirement applies only to terminal facilities that serve flights covered by §382.7 of this part.

(1) This means that passengers with a disability must be able to move readily through such terminal facilities to get to or from the gate and any other area from which passengers board the aircraft you use for such flights (e.g., the tarmac in the case of flights that do not use level-entry boarding). This obligation is in addition to your obligation to provide enplaning, deplaning, and connecting assistance to passengers.

(2) You may meet this obligation through any combination of facility accessibility, auxiliary aids, equipment, the assistance of personnel, or other appropriate means consistent with the safety and dignity of passengers with a disability.

(c) As a foreign carrier, you must meet the requirements of this section by May 13, 2010, except as otherwise indicated in paragraph (a). As a U.S. carrier, you must meet the requirements of paragraph (b) of this section by May 13, 2010.
