§ 1212.605 Safeguarding information in systems of records.

(a) Safeguards appropriate for a NASA system of records shall be developed by the system manager in a written plan approved by the Center Security Officer or Center Information Technology Security Officer for electronic records maintained in automated systems. Safeguards must insure the security and confidentiality of records and protect against any anticipated threats or hazards to their security or integrity which could result in substantial harm, embarrassment, inconvenience, or unfairness to any individual on whom information is maintained.

(b) When records or copies of records are distributed within NASA they shall be prominently identified as records protected under the Privacy Act and shall be subject to the same safeguard, retention, and disposition requirements applicable to the system of records.

(c) When records or copies of records are distributed to other Federal agencies, other than those having custody of the systems of records, they shall be prominently identified as records protected under the Privacy Act.

(d) Records that are otherwise required by law to be released to the public need not be safeguarded or identified as Privacy Act records.

§ 1212.606 Duplicate copies of records or portions of records.

(a) NASA officials may maintain and use, for official purposes, duplicate copies of records or portions of records from a system of records maintained by their own organizational unit. This practice should occur only where there are justifiable organizational needs for it, e.g., where geographic distances make use of the system of records time consuming or inconvenient. These duplicate copies shall not be considered a separate NASA system of records. For example, an office head or designee may keep duplicate copies of personnel, training, or similar records on employees within the organization for administrative convenience purposes.

(b) No disclosure shall be made from duplicate copies outside of the organizational unit. Any outside request for disclosure shall be referred to the appropriate system manager for response.

(c) Duplicate copies are subject to the same safeguard requirements applicable to the system of records.

Subpart 1212.7—NASA Authority and Responsibilities

§ 1212.700 NASA employees.

(a) Each NASA employee is responsible for adhering to the requirements of the Privacy Act and this regulation.

(b) An employee shall not seek or obtain access to a record in a NASA system of records or to copies of any portion of such records under false pretenses. Only those employees with an official “need to know” may seek and obtain access to records pertaining to others.

(c) Employees shall refrain from discussing or disclosing personal information about others which they have obtained because of their official need to know such information in the performance of official duties.

(d) To the extent included in a contract which provides for the maintenance by or on behalf of NASA of a system of records to accomplish a function of NASA, the requirements of this section shall apply to contractor employees who work under the contract.

§ 1212.701 Associate Deputy Administrator.

The Associate Deputy Administrator is responsible for:

(a) Making final Agency determinations on appeals (§1212.400), except on those related to records originating in the Office of the Inspector General;

(b) Authorizing exemptions from one or more provisions of the Privacy Act for NASA systems of records (See §1212.500); and,

(c) Authorizing an extension for making a final determination on an appeal (§1212.400(d)), except for an appeal related to records originating in the Office of the Inspector General.
