§ 90.1 Scope and applicability.

Between decennial censuses, the Census Bureau annually prepares statistical estimates of the number of people residing in states and their governmental units. In general, these estimates are developed by updating the population counts produced in the most recent decennial census with demographic components of change data and/or other indicators of population change. These rules prescribe the administrative procedure available to governmental units to request a challenge to the most current of these estimates.

§ 90.2 Policy of the Census Bureau.

It is the policy of the Census Bureau to provide the most accurate population estimates possible given the constraints of time, money, and available statistical techniques. It is also the policy of the Census Bureau to pro-

vide governmental units the opportunity to seek a review and provide additional data to these estimates and to present evidence relating to the accuracy of the estimates.

§ 90.3 Definitions.

As used in this part (except where the context clearly indicates otherwise) the following definitions shall apply:

(a) *Census Bureau* means the U.S. Census Bureau, Department of Commerce.

(b) *Population Estimates Challenge* means, in accordance with this part, the process a governmental unit may use to provide additional input data for the Census Bureau's population estimate and the submission of substantive documentation in support thereof.

(c) *Director* means Director of the Census Bureau, or an individual designated by the Director to perform under this part.

(d) *Population estimate* means a statistically developed calculation of the number of people living in a governmental unit to update the preceding census or earlier estimate.

(e) A *governmental unit* means the government of a county, municipality, township, incorporated place, or other minor civil division, which is a unit of general-purpose government below the State.

(f) A *non-functioning county or statistical equivalent* means a sub-state entity that does not function as an active general-purpose governmental unit. This situation exists in Connecticut, Rhode Island, for selected counties in Massachusetts, and for the Census Areas in Alaska.

(g) For the purposes of this program, an *eligible governmental unit* also includes the District of Columbia and non-functioning counties or statistical equivalents represented by a FSCPE member agency.

§ 90.4 General.

This part provides a procedure for a governmental unit to request a challenge of a population estimate of the Census Bureau. The Census Bureau, upon receipt of the appropriate documentation, will attempt to resolve the estimate with the governmental unit.
