ECCN, you will need to provide sufficient information for the U.S. Government to make a determination as to STA eligibility. This will require you to submit more than merely a description of the end item. In particular, you will need to provide supporting information for why you believe that the end item does not, for example, provide a critical military or intelligence advantage to the United States or is available in countries that are not regime partners or close allies. You will also need to provide information regarding whether and, if so, how the end item is controlled by the export control laws and regulations of close allies and regime partners, if known. If you are not able to provide some of the information described above, the U.S. Government will still evaluate the request, including using resources and information that may only be available to the U.S. Government. However, when submitting such requests you are encouraged to provide as much information as you can based on the criteria noted above to assist the U.S. Government in evaluating these License Exception STA eligibility requests. In addition, you should provide BIS with the text you would propose BIS use in describing the end item in the appropriate "600 series" ECCN and the online table referenced in §740.20(g)(3)(ii) in anticipation that the request may be approved pursuant to §740.20(g). You may submit additional information that you believe is relevant to the U.S. Government in reviewing the License Exception STA eligibility request as part of that support document or as an additional separate support document attachment to the license application.

(x) License application for a "600 series" item that is equivalent to a transaction previously approved under an ITAR license or other license authority. To request that the U.S. Government review of a license application for a "600 series" item also take into consideration a previously approved ITAR license or other approval, applicants must also include the State license number or other approval identifier in Block 24 of the BIS license application (See the instructions in Supplement No. 1 to part 748 under Block 24).

NOTE TO PARAGRAPH (x): License applications submitted under paragraph (x) will still be reviewed in accordance with license review procedures and timelines identified in part 750, including §§750.3 and 750.4. Applicants are advised that including a previously approved State license or other approval may have no effect on the license review process since each application is reviewed on its own merits at the time of submission. However, in some cases, previous licensing history may result in license applications being reviewed more quickly.
