§ 38.602 General financial integrity.

A designated contract market must provide for the financial integrity of its transactions by establishing and maintaining appropriate minimum financial standards for its members and non-intermediated market participants.

§ 38.603 Protection of customer funds.

A designated contract market must have rules concerning the protection of customer funds. These rules shall address appropriate minimum financial standards for intermediaries, the segregation of customer and proprietary funds, the custody of customer funds, the investment standards for customer funds, intermediary default procedures and related recordkeeping. A designated contract market must review the default rules and procedures of the derivatives clearing organization that clears for such designated contract market to wind down operations, transfer customers, or otherwise protect customers in the event of a default of a clearing member or the derivatives clearing organization.

§ 38.604 Financial surveillance.

A designated contract market must monitor members' compliance with the designated contract market's minimum financial standards and, therefore, must routinely receive and promptly review financial and related information from its members, as well as continuously monitor the positions of members and their customers. A designated contract market must have rules that prescribe minimum capital requirements for member futures commission merchants and introducing brokers. A designated contract market must:

(a) Continually survey the obligations of each futures commission merchant created by the positions of its customers;
(b) As appropriate, compare those obligations to the financial resources of the futures commission merchant; and
(c) Take appropriate steps to use this information to protect customer funds.

§ 38.605 Requirements for financial surveillance program.

A designated contract market's financial surveillance program for futures commission merchants, retail foreign exchange dealers, and introducing brokers must comply with the requirements of §1.52 of this chapter to assess the compliance of such entities with applicable contract market rules and Commission regulations.

§ 38.606 Financial regulatory services provided by a third party.

A designated contract market may comply with the requirements of §38.604 (Financial Surveillance) and §38.605 (Requirements for Financial Surveillance Program) of this part through the regulatory services of a registered futures association or a registered entity (collectively, “regulatory service provider”), as such terms are defined under the Act. A designated contract market must ensure that its regulatory service provider has the capacity and resources necessary to provide timely and effective regulatory services, including adequate staff and appropriate surveillance systems. A designated contract market will at all times remain responsible for compliance with its obligations under the Act and Commission regulations, and for the regulatory service provider’s performance on its behalf. Regulatory services must be provided under a written agreement with a regulatory services provider that shall specifically document the services to be performed as well as the capacity and resources of the regulatory service provider with respect to the services to be performed.

§ 38.607 Direct access.

A designated contract market that permits direct electronic access by customers (i.e., allowing customers of futures commission merchants to enter orders directly into a designated contract market’s trade matching system for execution) must have in place effective systems and controls reasonably
