them for the enjoyment and enrichment of present and future generations.

(c) The Commission shall:
(1) Seek the advice and assistance of appropriate societies and governmental agencies in the identification of archaeological, historic, and scenic areas and unique lands in any planning or development affecting these attributes of the basin.

§ 801.12 Electric power generation.

(a) Significant uses are presently being made of the waters of the basin for the generation of electric power at hydro, pumped storage, and thermoelectric generating stations. Increased demands for electric power throughout the East Coast can be expected to result in proposals for the development of additional electric power generating stations located either in the basin or nearby its borders.

(b) There appears to be limited site potential in the basin for additional hydroelectric generation, and considerable potential for additional pumped storage and thermoelectric generation. The direct and indirect effects of existing and proposed electric generation projects will be considered by the Commission. Items of concern will include consumptive uses of water, alteration of natural stream regimen, effects on water quality, and on the other uses of the streams affected.

(c) The Commission, in cooperation with appropriate agencies of the signatory parties, and with other public and private agencies shall:
(1) Conduct a thorough review of applications to relicense existing electric power generating projects and facilities, and applications to amend existing licenses to determine if the proposal is in accord with the comprehensive plan.

(2) Require that the proposed siting and location in the basin of any type of electric generating facility or any facility located outside the basin having an effect on the waters of the basin, shall be planned in direct consultation with the Commission to enable advance consideration of the possible effects of such installation on the water resources of the basin.

§ 801.13 Proviso.

(a) This part is promulgated pursuant to sections 3.1, 3.5(1), and 15.2 of the Compact and shall be construed and applied subject to all of the terms and conditions of the Compact and of the provisions of Pub. L. 91–575, 84 Stat. 1509: Provided. Any provision in this statement of general policies that is inconsistent with the Compact itself shall be null and void.

PARTS 803–805 [RESERVED]

PART 806—REVIEW AND APPROVAL OF PROJECTS

Subpart A—General Provisions

Sec. 806.1 Scope.
806.2 Purposes.
806.3 Definitions.
806.4 Projects requiring review and approval.
806.5 Projects that may require review and approval.
806.6 Transfer of approvals.
806.7 Concurrent project review by member jurisdictions.
806.8 Waiver/modification.

Subpart B—Application Procedure

806.10 Purpose of this subpart.
806.11 Preliminary consultations.
806.12 Constant-rate aquifer testing.
806.13 Submission of application.
806.14 Contents of application.
806.15 Notice of application.
806.16 Completeness of application.

Subpart C—Standards for Review and Approval

806.20 Purpose of this subpart.
806.21 General standards.
806.22 Standards for consumptive uses of water.
806.23 Standards for water withdrawals.
806.24 Standards for diversions.
806.25 Water conservation standards.

Subpart D—Terms and Conditions of Approval

806.30 Monitoring.
806.31 Term of approvals.
806.32 Reopening/modification.
806.33 Interest on fees.
806.34 Emergencies.
806.35 Fees.
