Subpart D—Textile and Apparel Articles Under the African Growth and Opportunity Act

§ 10.211 Applicability.

Title I of Public Law 106–200 (114 Stat. 251), entitled the African Growth and Opportunity Act (AGOA), authorizes the President to extend certain trade benefits to designated countries in sub-Saharan Africa. Section 112 of the AGOA, codified at 19 U.S.C. 3721, provides for the preferential treatment of certain textile and apparel articles from beneficiary countries. The provisions of §§10.211–10.217 of this part set forth the legal requirements and procedures that apply for purposes of obtaining preferential treatment pursuant to section 112.

§ 10.212 Definitions.

When used in §§10.211 through 10.217, the following terms have the meanings indicated:

Apparel articles. “Apparel articles” means goods classifiable in Chapters 61 and 62 and headings 6501, 6502, 6503, and 6504 and subheadings 6406.99 and 6505.90 of the HTSUS.

Assembled in one or more beneficiary countries. “Assembled in one or more beneficiary countries” when used in the context of a textile or apparel article has reference to a joining together of two or more components that occurred in one or more beneficiary countries, whether or not a prior joining operation was performed on the article or any of its components in the United States.

Beneficiary country. “Beneficiary country” means a country listed in section 107 of the African Growth and Opportunity Act (19 U.S.C. 3706) which has been the subject of a finding by the President or his designee, published in the Federal Register, that the country has satisfied the requirements of section 113 of the African Growth and Opportunity Act (19 U.S.C. 3722) and which the President has designated as a beneficiary sub-Saharan African country under section 506A of the Trade Act of 1974 (19 U.S.C. 2466a).

Cut in one or more beneficiary countries. “Cut in one or more beneficiary countries” when used with reference to apparel articles means that all fabric components used in the assembly of the article were cut from fabric in one or more beneficiary countries.

HTSUS. “HTSUS” means the Harmonized Tariff Schedule of the United States.

Knit-to-shape articles. “Knit-to-shape,” when used with reference to sweaters or other apparel articles, means any apparel article of which 50 percent or more of the exterior surface area is formed by major parts that have been knitted or crocheted directly to the shape used in the apparel article, with no consideration being given to patch pockets, appliques, or the like. Minor cutting, trimming, or sewing of those major parts will not affect the determination of whether an apparel article is “knit-to-shape.”

Knit-to-shape components. “Knit-to-shape,” when used with reference to textile components, means components that are knitted or crocheted from a yarn directly to a specific shape containing a self-start edge. Minor cutting or trimming will not affect the determination of whether a component is “knit-to-shape.”

Major parts. “Major parts” means integral components of an apparel article but does not include collars, cuffs, waistbands, plackets, pockets, linings, paddings, trim, accessories, or similar parts or components.

NAFTA. “NAFTA” means the North American Free Trade Agreement entered into by the United States, Canada, and Mexico on December 17, 1992.

Wholly assembled in. When used with reference to a textile or apparel article in the context of one or more beneficiary countries or one or more lesser developed beneficiary countries, the expression "wholly assembled in" means that all of the components of the textile or apparel article (including thread, decorative embellishments, buttons, zippers, or similar components) were joined together in one or more beneficiary countries or one or more lesser developed beneficiary countries.

Wholly formed fabrics. "Wholly formed," when used with reference to fabric(s), means that all of the production processes, starting with polymers, fibers, filaments, textile strips, yarns, twine, cordage, rope, or strips of fabric and ending with a fabric by a weaving, knitting, needling, tufting, felting, entangling or other process, took place in the United States or in one or more beneficiary countries.

Wholly formed on seamless knitting machines. "Wholly formed on seamless knitting machines," when used to describe apparel articles, has reference to a process that created a knit-to-shape apparel article by feeding yarn(s) into a knitting machine to result in that article. When taken from the knitting machine, an apparel article created by this process either is in its final form or requires only minor cutting or trimming or the addition of minor components or parts such as patch pockets, appliques, capping, or elastic strip.

Wholly formed yarns. "Wholly formed," when used with reference to yarns, means that all of the production processes, starting with the extrusion of filament, strip, film, or sheet and including slitting a film or sheet into strip, or the spinning of all fibers into yarn, or both, and ending with a yarn or plied yarn, took place in a single country.
