§ 151.65 Duties.

Duties on wool or hair subject to
duty at a rate per clean kilogram may
be estimated at the time of filing the
entry summary on the basis of the clean
yield shown on the entry summary if the port director is satisfied
that the revenue will be properly pro-
tected. Liquidated duties shall be based
upon the port director’s final deter-
mination of clean yield. Estimated and
liquidated duties on wool or hair tested
for clean yield pursuant to the provi-
sions of §151.71, and withdrawn for con-
sumption without a change in condition
which affects the duties and in a
quantity less than an entire sampling
unit shall be determined on the basis of
an appropriate adjustment of the esti-
mated percentage clean yield shown on
the entry summary for the wool or hair
included in each of the lots covered by
the withdrawal. This adjustment shall
be made by increasing or decreasing
such estimated percentage clean yield
of each lot by the difference between
the percentage clean yield of the re-
lated sampling unit, as determined by
the port director, and the weighted av-
erage percentage clean yield for the
sampling unit, as computed from the
estimated percentages clean yield and
net weights shown on the entry sum-
mary for the lots included in the sam-
pling unit.

The importer may be permitted after

repaired by him. Any samples so with-
drawn shall be weighed and a record
showing the quantities thereof shall be
made and filed with the related entry.

§ 151.68 Merchandise to be sampled
