§ 10.439 What is addressed at a pre-recoupment hearing?

At a pre-recoupment hearing, the OWCP representative will consider all issues in the claim on which a formal decision has been issued. Such a hearing will thus fulfill OWCP’s obligation to provide pre-recoupment rights and a hearing under 5 U.S.C. 8124(b). Pre-recoupment hearings shall be conducted in exactly the same manner as provided in § 10.615 through § 10.622.

§ 10.440 How does OWCP communicate its final decision concerning recovery of an overpayment, and what appeal right accompanies it?

(a) OWCP will send a copy of the final decision to the individual from whom recovery is sought; his or her representative, if any; and the employing agency.

(b) The only review of a final decision concerning an overpayment is to the Employees’ Compensation Appeals Board. The provisions of 5 U.S.C. 8124(b) (concerning hearings) and 5 U.S.C. 8128(a) (concerning reconsiderations) do not apply to such a decision. The pendency of an appeal with ECAB has no effect on the finality of the order being appealed; in the event ECAB reverses the final overpayment decision, any monies collected will be restored to the beneficiary.

§ 10.441 How are overpayments collected?

(a) When an overpayment has been made to an individual who is entitled to further payments, the individual shall refund to OWCP the amount of the overpayment as soon as the error is discovered or his or her attention is called to same. If no refund is made, OWCP shall decrease later payments of compensation, taking into account the probable extent of future payments, the rate of compensation, the financial circumstances of the individual, and any other relevant factors, so as to minimize any hardship. Should the individual die before collection has been completed, collection shall be made by decreasing later payments, if any, payable under the FECA with respect to the individual’s death. If no further benefits are payable with respect to the individual’s death, OWCP may also file a claim with the estate of the individual or seek repayment of the overpayment through other means including referral of the debt to the Treasury Department.

(b) When an overpayment has been made to an individual who is not entitled to further payments, the individual shall refund to OWCP the amount of the overpayment as soon as the error is discovered or his or her attention is called to same. The overpayment is subject to the provisions of the Federal Claims Collection Act of 1966 (as amended) and may be reported to the Internal Revenue Service as income. If the individual fails to make such refund, OWCP may recover the same through any available means, including offset of salary, annuity benefits, or other Federal payments, including tax refunds as authorized by the Tax Refund Offset Program, or referral of the debt to a collection agency or to the Department of Justice.

Subpart F—Continuing Benefits

§ 10.500 What are the basic rules governing continuing receipt of compensation benefits and return to work?

(a) Benefits are available only while the effects of a work-related condition continue. Compensation for wage loss due to disability is available only for any periods during which an employee’s work-related medical condition prevents him or her from earning the wages earned before the work-related injury. For example, an employee is not entitled to compensation for any wage-loss claimed on a CA–7 to the extent that evidence contemporaneous with the period claimed on a CA–7 establishes that an employee had medical work restrictions in place; that light duty within those work restrictions was available; and that the employee was previously notified in writing that such duty was available. Similarly, an employee receiving continuing periodic payments for disability was not prevented from earning...
the wages earned before the work-related injury if the evidence establishes that the employing agency had offered, in accordance with OWCP procedures, a temporary light duty assignment within the employee’s work restrictions. (The penalty provision of 5 U.S.C. 8106(c)(2) will not be imposed on such assignments under this paragraph.)

(b) Each disabled employee is obligated to perform such work as he or she can. OWCP’s goal is to return each disabled employee to work as soon as he or she is medically able. In determining what work qualifies under 5 U.S.C. 8115 for determining the wage-earning capacity for a particular disabled employee, OWCP considers all relevant factors, including the employee’s current physical limitations, whether the work is available within the employee’s demonstrated commuting area and the employee’s qualifications to perform such work.

(c) A disabled employee who refuses to seek or accept suitable employment within the meaning of 5 U.S.C. 8106(c)(2) is not entitled to compensation.

(d) Payment of medical benefits is available for all treatment necessary due to a work-related medical condition.

§ 10.501 What medical evidence is necessary to support continuing receipt of compensation benefits?

(a) The employee is responsible for providing sufficient medical evidence to justify payment of any compensation sought.

(1) To support payment of continuing compensation where an employee has been found entitled to periodic benefits, narrative medical evidence must be submitted whenever OWCP requests it but ordinarily not less than once a year and with any filing of a form CA-1032. It must contain a physician’s rationalized opinion as to whether the specific period of alleged disability is causally related to the employee’s accepted injury or illness.

(2) For those employees with more serious conditions not likely to improve and for employees over the age of 65, OWCP may require less frequent documentation, but ordinarily not less than once every three years.

(3) The physician’s opinion must be based on the facts of the case and the complete medical background of the employee, must be one of reasonable medical certainty and must include objective findings in support of its conclusions. Subjective complaints of pain are not sufficient, in and of themselves, to support payment of continuing compensation. Likewise, medical limitations based solely on the fear of a possible future injury are also not sufficient to support payment of continuing compensation. See §10.330 for a fuller discussion of medical evidence.

(b) OWCP may require any kind of non-invasive testing to determine the employee’s functional capacity. Failure to undergo such testing will result in a suspension of benefits. In addition, OWCP may direct the employee to undergo a second opinion or referee examination in any case it deems appropriate (see §§10.320 and 10.321).

§ 10.502 How does OWCP evaluate evidence in support of continuing receipt of compensation benefits?

In considering the medical and factual evidence, OWCP will weigh the probative value of the attending physician’s report, any second opinion physician’s report, any other medical reports, or any other evidence in the file. If OWCP determines that the medical evidence supporting one conclusion is more consistent, logical, and well-reasoned than evidence supporting a contrary conclusion, OWCP will use the conclusion that is supported by the weight of the medical evidence as the basis for awarding or denying further benefits. If medical reports that are equally well-reasoned support inconsistent determinations of an issue under consideration, OWCP will direct the employee to undergo a third, impartial referee examination to resolve the issue, which will be given special weight in determining the issue.

§ 10.503 Under what circumstances may OWCP reduce or terminate compensation benefits?

Once OWCP has advised the employee that it has accepted a claim and has either approved continuation of pay or paid medical benefits or compensation,
