§ 404.1091

§ 404.1088 Retirement payment to retired partners.

(a) *In general.* If you are a retired partner, in figuring your net earnings from self-employment you must exclude payments made to you on a periodic basis by a partnership on account of your retirement and which are to continue until your death. This exclusion applies only if the payments are made under a written plan which meets the requirements set out in 26 CFR 1.1402(a)-(17) and the conditions in paragraph (b) of this section are met. The necessary requirements and conditions must be met throughout the entire partnership's taxable year for the payments to be excluded so that either all or none of the payments are excluded.

(b) *Other conditions.* You must have been paid your full share of the partnership's capital before the close of the partnership's taxable year in which retirement payments are made. Also, no member of the partnership can have any financial obligations to you (in his or her capacity as a partner) except to make the retirement payments. Lastly, you cannot perform any services for the partnership in the partnership's taxable year which falls wholly or partially in your taxable year in which you receive the retirement payments.

Example: D, a partner in the DEF partnership, retired from the partnership as of December 31, 1976. The taxable year of both D and the partnership is the calendar year. During the partnership's taxable year ending December 31, 1977, D rendered no service to any trade or business carried on by the partnership. On or before December 31, 1977, all obligations (other than retirement payments under the plan) from the other partners to D were liquidated, and D's share of the capital of the partnership was paid to him. Retirement payments received by D under the partnership's plan in his taxable year ending December 31, 1977, are excluded in determining net earnings from self-employment (if any) for that taxable year.

§ 404.1089 Figuring net earnings for residents and nonresidents of Puerto Rico.

(a) *Residents.* If you are a resident of Puerto Rico, whether or not you are an alien, a citizen of the United States, or a citizen of Puerto Rico, you must figure your net earnings from self-em-

ployment in the same manner as would a citizen of the United States residing in the United States. In figuring your net earnings from self-employment you must include your income from sources in Puerto Rico even though you are a resident of Puerto Rico during the entire taxable year.

(b) *Nonresidents.* A citizen of Puerto Rico, who is also a citizen of the United States and who is not a resident of Puerto Rico must figure net earnings from self-employment in the same manner as other citizens of the United States.

§ 404.1090 Personal exemption deduction.

The deduction provided by section 151 of the Code, relating to personal exemptions, is excluded in determining net earnings from self-employment.

§ 404.1091 Figuring net earnings for ministers and members of religious orders.

(a) *General.* If you are a duly ordained, commissioned, or licensed minister of a church or a member of a religious order who has not taken a vow of poverty, we consider you to be engaged in a trade or business under the conditions described in § 404.1071 with regard to services described in § 404.1023 (c) and (e). In figuring your net earnings from self-employment from performing these services, you must include certain income (described in paragraphs (b) and (c) of this section) that may be excluded from your gross income for income tax purposes.

(b) *Housing and meals.* You must include in figuring your net earnings from self-employment the rental value of a home furnished to you and any rental allowance paid to you as payment for services performed in the exercise of your ministry or in the exercise of duties required by your order even though the rental value or rental allowance may be excluded from gross income by section 107 of the Code. Also, the value of any meals or lodging furnished to you in connection with the performance of these services is included in figuring your net earnings from self-employment even though their value is excluded from gross income by section 119 of the Code.

§ 404.1092

20 CFR Ch. III (4-1-14 Edition)

(c) *Housing allowance when included in retirement pay.* You must exclude any parsonage or housing allowance included in your retirement pay or any other retirement benefit received after retirement pursuant to a church plan as defined in section 414(e) of the Internal Revenue Code when computing your net earnings from self-employment. For example, if a minister retires from Church A and the rental value of a parsonage or any other allowance is included in his/her retirement pay, the parsonage allowance must be excluded when determining net earnings from self-employment. However, if this same retired minister goes to work for Church B and is paid a parsonage allowance by Church B, this new income must be included when computing net earnings from self-employment.

(d) *Services outside the United States.* If you are a citizen or resident of the United States performing services outside the United States which are in the exercise of your ministry or in the exercise of duties required by your order, your net earnings from self-employment from the performance of these services are figured as described in paragraph (b) of this section. However, they are figured without regard to the exclusions from gross income provided in sections 911 and 931 of the Code relating to earned income from services performed outside the United States and from sources within possessions of the United States.
