§ 607.22 How and where to register establishments and list blood products.

(a) The first registration of an establishment shall be on Form FD–2830 (Blood Establishment Registration and Product Listing) obtainable on request by mail from the Center for Biologics Evaluation and Research (HFM–375) (see mailing addresses in § 600.2 of this chapter) or any of the Food and Drug Administration district offices. Establishment registration and product listing do not constitute an admission or agreement or determination that a blood product is a “drug” within the meaning of section 201(g) of the act.
