§ 120.3 Policy on designating or determining defense articles and services on the U.S. Munitions List.

(a) For purposes of this subchapter, a specific article or service may be designated a defense article (see § 120.6 of this subchapter) or defense service (see § 120.9 of this subchapter) if it:

(1) Meets the criteria of a defense article or defense service on the U.S. Munitions List; or

(2) Provides the equivalent performance capabilities of a defense article on the U.S. Munitions List.

(b) For purposes of this subchapter, a specific article or service shall be determined in the future as a defense article or defense service if it provides a critical military or intelligence advantage such that it warrants control under this subchapter.

NOTE TO PARAGRAPHS (a) AND (b): An article or service determined in the future pursuant to this subchapter as a defense article or defense service, but not currently on the U.S. Munitions List, will be placed in U.S. Munitions List Category XXI until the appropriate U.S. Munitions List category has been amended to provide the necessary entry.

(c) A specific article or service is not a defense article or defense service for purposes of this subchapter if it:

(1) Is determined to be under the jurisdiction of another department or agency of the U.S. Government (see § 120.5 of this subchapter) pursuant to a commodity jurisdiction determination (see § 120.4 of this subchapter) unless superseded by changes to the U.S. Munitions List or by a subsequent commodity jurisdiction determination; or

(2) Meets one of the criteria of § 120.41(b) of this subchapter when the article is used in or with a defense article and specially designed is used as a control criteria (see § 120.41 of this subchapter).

NOTE TO § 120.3: The intended use of the article or service after its export (i.e., for a military or civilian purpose), by itself, is not a factor in determining whether the article or service is subject to the controls of this subchapter.

[78 FR 22753, Apr. 16, 2013]

§ 120.4 Commodity jurisdiction.

(a) The commodity jurisdiction procedure is used with the U.S. Government if doubt exists as to whether an article or service is covered by the U.S. Munitions List. It may also be used for consideration of a redesignation of an article or service currently covered by the U.S. Munitions List. The Department must provide notice to Congress at least 30 days before any item is removed from the U.S. Munitions List. Upon electronic submission of a Commodity Jurisdiction (CJ) Determination Form (Form DS–4076), the Directorate of Defense Trade Controls shall provide a determination of whether a particular article or service is covered by the U.S. Munitions List. The determination, consistent with §§ 120.2, 120.3, and 120.4, entails consultation among the Departments of State, Defense, Commerce, and other U.S. Government agencies and industry in appropriate cases.

(b) Registration with the Directorate of Defense Trade Controls as defined in part 122 of this subchapter is not required prior to submission of a commodity jurisdiction request. If it is determined that the commodity is a defense article or defense service covered by the U.S. Munitions List, registration is required for exporters, manufacturers, and furnishers of such defense articles and defense services (see part 122 of this subchapter), as well as for brokers who are engaged in brokering activities related to such articles or services.

(c) Requests shall identify the article or service, and include a history of this product’s design, development, and use. Brochures, specifications, and any other documentation related to the article or service should be submitted as electronic attachments per the instructions for Form DS–4076.

(d)(1) [Reserved]

(2) A designation that an article or service meets the criteria of a defense article or defense service, or provides the equivalent performance capabilities of a defense article on the U.S. Munitions List set forth in this subchapter, is made on a case-by-case basis by the Department of State, taking into account:

(i) The form and fit of the article; and

(ii) The function and performance capability of the article.
