§ 965.506 Surcharges for excess consumption of PHA-furnished utilities.

(a) For dwelling units subject to allowances for PHA-furnished utilities where checkmeters have been installed, the PHA shall establish surcharges for utility consumption in excess of the allowances. Surcharges may be computed on a straight per unit of purchase basis (e.g., cents per kilowatt hour of electricity) or for stated blocks of excess consumption, and shall be based on the PHA’s average utility rate. The basis for calculating such surcharges shall be described in the PHA’s schedule of allowances. Changes in the dollar amounts of surcharges based directly on changes in the PHA’s average utility rate shall not be subject to the advance notice requirements of this section.

(b) For dwelling units served by PHA-furnished utilities where checkmeters have not been installed, the PHA shall establish schedules of surcharges indicating additional dollar amounts residents will be required to pay by reason of estimated utility consumption attributable to resident-owned major appliances or to optional functions of PHA-furnished equipment. Such surcharge schedules shall state the resident-owned equipment (or functions of PHA-furnished equipment) for which surcharges shall be made and the amounts of such charges, which shall be based on the cost to the PHA of the utility consumption estimated to be attributable to reasonable usage of such equipment.

§ 965.507 Review and revision of allowances.

(a) Annual review. The PHA shall review at least annually the basis on which utility allowances have been established and, if reasonably required in order to continue adherence to the standards stated in §965.505, shall establish revised allowances. The review shall include all changes in circumstances (including completion of modernization and/or other energy conservation measures implemented by the PHA) indicating probability of a significant change in reasonable consumption requirements and changes in utility rates.

(b) Revision as a result of rate changes. The PHA may revise its allowances for resident-purchased utilities between annual reviews if there is a rate change (including fuel adjustments) and shall be required to do so if such change, by itself or together with prior rate changes not adjusted for, results in a change of 10 percent or more from the rates on which such allowances were based. Adjustments to resident payments as a result of such changes shall be retroactive to the first day of the month following the month in which the last rate change taken into account in such revision became effective. Such rate changes shall not be subject to the 60 day notice requirement of §965.502(c).

§ 965.508 Individual relief.

Requests for relief from surcharges for excess consumption of PHA-purchased utilities, or from payment of utility supplier billings in excess of the allowances for resident-purchased utilities, may be granted by the PHA on reasonable grounds, such as special needs of elderly, ill or disabled residents, or special factors affecting utility usage not within the control of the resident, as the PHA shall deem appropriate. The PHA’s criteria for granting such relief, and procedures for requesting such relief, shall be adopted at the time the PHA adopts the methods and procedures for determining utility allowances. Notice of the availability of such procedures (including identification of the PHA representative with whom initial contact may be made by residents), and the PHA’s criteria for granting such relief, shall be included in each notice to residents given in accordance with §965.502(c) and in the information given to new residents upon admission.

Subpart F—Physical Condition Standards and Physical Inspection Requirements

§ 965.601 Physical condition standards; physical inspection requirements.

Housing owned or leased by a PHA, and public housing owned by another entity approved by HUD, must be maintained in accordance with the physical condition standards in 24 CFR.
part 5, subpart G. For each PHA, HUD will perform an independent physical inspection of a statistically valid sample of such housing based upon the physical condition standards in 24 CFR part 5, subpart G.

[63 FR 46580, Sept. 1, 1998]

Subpart G [Reserved]

Subpart H—Lead-Based Paint Poisoning Prevention

§ 965.701 Lead-based paint poisoning prevention.

The requirements of the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. 4821–4846), the Residential Lead-Based Paint Hazard Reduction Act of 1992 (42 U.S.C. 4851–4856), and implementing regulations at part 35, subparts A, B, L, and R of this title apply to this program.

[64 FR 50229, Sept. 15, 1999]

Subpart I—Fire Safety

SOURCE: 57 FR 33853, July 30, 1992, unless otherwise noted.

§ 965.800 Applicability.

This subpart applies to all PHA-owned or -leased housing housing, including Mutual Help and Turnkey III.

§ 965.805 Smoke detectors.

(a) Performance requirement. (1) After October 30, 1992, each unit covered by this subpart must be equipped with at least one battery-operated or hard-wired smoke detector, or such greater number as may be required by state or local codes, in working condition, on each level of the unit. In units occupied by hearing-impaired residents, smoke detectors must be hard-wired.

(2) After October 30, 1992, the public areas of all housing covered by this subpart must be equipped with a sufficient number, but not less than one for each area, of battery-operated or hard-wired smoke detectors to serve as adequate warning of fire. Public areas include, but are not limited to, laundry rooms, community rooms, day care centers, hallways, stairwells, and other common areas.

(b) Acceptability criteria. (1) The smoke detector for each individual unit must be located, to the extent practicable, in a hallway adjacent to the bedroom or bedrooms. In units occupied by hearing-impaired residents, hard-wired smoke detectors must be connected to an alarm system designed for hearing-impaired persons and installed in the bedroom or bedrooms occupied by the hearing-impaired residents. Individual units that are jointly occupied by both hearing and hearing-impaired residents must be equipped with both audible and visual types of alarm devices.

(2) If needed, battery-operated smoke detectors, except in units occupied by hearing-impaired residents, may be installed as a temporary measure where no detectors are present in a unit. Temporary battery-operated smoke detectors must be replaced with hard-wired electric smoke detectors in the normal course of a PHA’s planned CIAP or CGP program to meet the required HUD Modernization Standards or state or local codes, whichever standard is stricter. Smoke detectors for units occupied by hearing-impaired residents must be installed in accordance with the acceptability criteria in paragraph (b)(1) of this section.

(c) Funding. PHAs shall use operating funds to provide battery-operated smoke detectors in units that do not have any smoke detector in place. If operating funds or reserves are insufficient to accomplish this, PHAs may apply for emergency CIAP funding. The PHAs may apply for CIAP or CGP funds to replace battery-operated smoke detectors with hard-wired smoke detectors in the normal course of a planned modernization program.

PART 966—PUBLIC HOUSING LEASE AND GRIEVANCE PROCEDURE

Subpart A—Dwelling Leases, Procedures and Requirements

Sec.
966.1 Purpose and applicability.
966.2 Definitions.
966.3 Tenants’ opportunity for comment.
966.4 Lease requirements.
966.5 Posting of policies, rules and regulations.
966.6 Prohibited lease provisions.
