

§ 162.545 How will BIA enforce removal requirements in a WSR lease?

(a) We may take appropriate enforcement action to ensure removal of the permanent improvements and restoration of the premises at the lessee’s expense:

1. In consultation with the tribe, for tribal land or, where feasible, with Indian landowners for individually owned Indian land; and

2. Before or after expiration, termination, or cancellation of the lease.

(b) We may collect and hold the performance bond until removal and restoration are completed.

§ 162.546 What requirements for due diligence must a WSR lease include?

(a) A WSR lease must include due diligence requirements that require the lessee to:

1. Commence installation of energy facilities within 2 years after the effective date of the lease or consistent with a timeframe in the resource development plan;

2. If installation does not occur, or is not expected to be completed, within the time period specified in paragraph (a)(1) of this section, provide the Indian landowners and BIA with an explanation of good cause as to the nature of any delay, the anticipated date of installation of facilities, and evidence of progress toward commencement of installation;

3. Maintain all on-site electrical generation equipment and facilities and related infrastructure in accordance with the design standards in the resource development plan; and

4. Repair, place into service, or remove from the site within a time period specified in the lease any idle, improperly functioning, or abandoned equipment or facilities that have been inoperative for a continuous period specified in the lease (unless the equipment or facilities were idle as a result of planned suspension of operations, for example, for grid operations or during bird migration season).

(b) Failure of the lessee to comply with the due diligence requirements of the lease is a violation of the lease and may lead to cancellation of the lease under § 162.592.

§ 162.547 How must a WSR lease describe the land?

(a) A WSR lease must describe the leased premises by reference to a private or public survey, if possible. If the land cannot be so described, the lease must include one or more of the following:

1. A legal description;

2. A survey-grade global positioning system description; or

3. Another description prepared by a registered land surveyor that is sufficient to identify the leased premises.

(b) If the tract is fractionated, we will identify the undivided trust or restricted interests in the leased premises.

§ 162.548 May a WSR lease allow compatible uses?

The lease may provide for the Indian landowners to use, or authorize others to use, the leased premises for other uses compatible with the purpose of the WSR lease and consistent with the terms of the WSR lease. This may include the right to lease the premises for other compatible purposes. Any such use or authorization by the Indian landowners will not reduce or offset the monetary compensation for the WSR lease.
§ 162.549 How much monetary compensation must be paid under a WSR lease of tribal land?

(a) A WSR lease of tribal land may allow for any payment negotiated by the tribe, and we will defer to the tribe and not require a valuation if the tribe submits a tribal authorization expressly stating that it:

(1) Has negotiated compensation satisfactory to the tribe;
(2) Waives valuation; and
(3) Has determined that accepting such negotiated compensation and waiving valuation is in its best interest.

(b) The tribe may request, in writing, that we determine fair market rental, in which case we will use a valuation in accordance with §162.551. After providing the tribe with the fair market rental, we will defer to a tribe’s decision to allow for any payment amount negotiated by the tribe.

(c) If the conditions in paragraph (a) or (b) of this section are not met, we will require that the lease provide for fair market rental based on a valuation in accordance with §162.551.

§ 162.550 How much monetary compensation must be paid under a WSR lease of individually owned Indian land?

(a) A WSR lease of individually owned Indian land must require payment of not less than fair market rental before any adjustments, based on a fixed amount, a percentage of the projected gross income, megawatt capacity fee, or some other method, unless paragraphs (b) or (c) of this section permit a lesser amount. The lease must establish how the fixed amount, percentage or combination will be calculated and the frequency at which the payments will be made.

(b) We may approve a lease of individually owned Indian land that provides for the payment of nominal compensation, or less than a fair market rental, if:

(1) The Indian landowners execute a written waiver of the right to receive fair market rental; and

(2) We determine it is in the Indian landowners’ best interest, based on factors including, but not limited to:

(i) The lessee is a member of the immediate family, as defined in §162.003, of an Indian landowner;  
(ii) The lessee is a co-owner of the leased tract;  
(iii) A special relationship or circumstances exist that we believe warrant approval of the lease;  
(iv) The lease is for public purposes; or  
(v) We have waived the requirement for a valuation under paragraph (e) of this section.

(c) We may approve a lease that provides for the payment of less than a fair market rental during the periods before the generation and transmission of electricity begins, if we determine it is in the Indian landowners’ best interest. The lease must specify the amount of the compensation and the applicable periods.

(d) We will require a valuation in accordance with §162.422, unless:

(1) 100 percent of the landowners submit to us a written request to waive the valuation requirement; or  
(2) We waive the requirement under paragraph (e) of this section; or  
(3) We determine it is in the best interest of the Indian landowners to accept an economic analysis in lieu of an appraisal and:

(i) The Indian landowners submit an economic analysis that is approved by the Office of Indian Energy & Economic Development (IEED); or  
(ii) IEED prepares an economic analysis at the request of the Indian landowners.

(e) If the owners of the applicable percentage of interests under §162.011 of this part grant a WSR lease on behalf of all of the Indian landowners of a fractionated tract, the lease must provide that the non-consenting Indian landowners, and those on whose behalf we have consented, receive a fair market rental, as determined by a valuation, unless we waive the requirement because the tribe or lessee will construct infrastructure improvements on, or serving, the leased premises, and we determine it is in the best interest of all the landowners.
