(e) The mining supervisor shall review the mining plan submitted to him by the operator and shall promptly indicate to the operator any changes, additions, or amendments necessary to meet the requirements formulated pursuant to §216.4, the provisions of these regulations and the terms of the permit or lease. The operator shall comply with the provisions of an approved mining plan.

(f) A mining plan may be changed by mutual consent of the mining supervisor and the operator at any time to adjust to changed conditions or to correct any oversight. To obtain approval of a change or supplemental plan, the operator shall submit a written statement of the proposed changes or supplement and the justification for the changes proposed. The mining supervisor shall promptly notify the operator that he consents to the proposed changes or supplement, or in the event he does not consent, he shall specify the modifications thereto under which the proposed changes or supplement would be acceptable. After mutual acceptance of a change of a plan, the operator shall not depart therefrom without further approval.

(g) If circumstances warrant or if development of a mining plan for the entire operation is dependent upon unknown factors which cannot or will not be determined except during the progress of the operations, a partial plan may be approved and supplemented from time to time. The operator shall not, however, perform any operation except under an approved plan.

§216.8 Performance bond.

(a) Upon approval of an exploration plan or mining plan, the operator shall be required to file a suitable performance bond of not less than $2,000 with satisfactory surety, payable to the Secretary of the Interior, and the bond shall be conditioned upon the faithful compliance with applicable regulations, the terms and conditions of the permit, lease, or contract, and the exploration or mining plan as approved, amended or supplemented. The bond shall be in an amount sufficient to satisfy the reclamation requirements established pursuant to an approved exploration or mining plan, or an approved partial or supplemental plan. In determining the amount of the bond consideration shall be given to the character and nature of the reclamation requirements and the estimated costs of reclamation in the event that the operator forfeits his performance bond. In lieu of a surety bond an operator may elect to deposit cash or negotiable bonds of the U.S. government. The cash deposit or the market value of such securities shall be equal at least to the required sum of the bond.

(b) In a particular instance where the circumstances are such as to warrant an exception, the amount of the bond for a particular operation may be reduced to less than the required minimum of $2,000.

(c) The superintendent shall set the amount of a bond and take the necessary action for an increase or for a complete or partial release of a bond. He shall take action with respect to bonds for leases or permits only after consultation with the mining supervisor.

§216.9 Reports.

(a) Within 30 days after the end of each calendar year, or if operations cease before the end of a calendar year, within 30 days after the cessation of operations, the operator shall submit an operations report to the mining supervisor containing the following information:

1. An identification of the permit or lease and the location of the operation.
2. A description of the operations performed during the period of time for which the report is filed.
3. An identification of the area of land affected by the operations and a description of the manner in which the land has been affected.
4. A statement as to the number of acres disturbed by the operations and the number of acres which were reclaimed during the period of time.
5. A description of the method utilized for reclamation and the results thereof.
6. A statement and description of reclamation work remaining to be done.
7. Upon completion of such grading and backfilling as may be required by
