### Subpart M—Losses of Wine

#### § 24.265 Losses by theft.

The proprietor shall be liable for and pay the tax on wine unlawfully removed while on bonded wine premises, or while in transit thereto or therefrom in bond, unless the proprietor or other person responsible for the tax, establishes to the satisfaction of the appropriate TTB officer that the theft did not occur as the result of connivance, collusion, fraud or negligence on the part of the proprietor or other person responsible for the tax or the owner, consignor, consignee, bailee, or carrier, or their agents or employees.

#### § 24.266 Inventory losses.

(a) *General.* The proprietor shall take a physical inventory of all untaxpaid wine on-hand on bonded wine premises as of the close of business each tax year, or where a cycle different from the tax year has been established as provided in § 24.313, the inventory will be taken annually at the end of that cycle, or at any time required by an appropriate TTB officer. The physical inventory of bulk and bottled or packed

wine will be recorded and reported as required by § 24.313.

(b) *Bulk wine losses.* The physical inventory of bulk wine will determine losses due to spillage, leakage, soakage, evaporation, and other losses normally occurring from racking and filtering since the previous physical inventory required by this section. A claim for allowance of loss, under the provisions of § 24.65, is required for inventory losses in production or storage:

(1) Where there are circumstances indicating that all or a part of the wine reported lost was unlawfully removed, or

(2) Where the loss on bonded wine premises during the annual period exceeds three percent of the aggregate volume of wine on-hand at the beginning of the annual period and the volume of wine received in bond during the annual period; or the loss exceeds six percent of the still wine produced by fermentation; or the loss exceeds six percent of the sparkling wine produced by fermentation in bottles; or the loss exceeds three percent of the special natural wine produced under § 24.195 or other wine produced under § 24.218; or the loss exceeds three percent of the artificially carbonated wine produced; or the loss exceeds three percent of the bulk process sparkling wine produced.

The percentage applicable to each tax class of wine will be calculated separately, unless the calculation is impracticable because of the mixture of different tax classes by addition of wine spirits or blending during the annual period, in which case the percentage will be calculated on the aggregate volume. Wine removed immediately after production for use as distilling material and on which the usual racking, clarifying, and filtering losses are not sustained, will not be included in the calculations.

(c) *Bottle and other container wine losses.* Wine filled into a bottle or other similar containers are not subject to losses due to spillage, leakage, soakage, evaporation, and other losses normally occurring from racking and filtering. In addition, wine that has been filled into a bottle or other similar containers can be accurately accounted for and any unexplained shortage is

considered evidence of an unreported removal. Therefore, the proprietor shall pay the tax on any unexplained loss of untaxed bottled or packed wine disclosed by inventory or otherwise.
