medication is necessary because, as a result of the mental illness or disorder, the inmate is dangerous to self or others, poses a serious threat of damage to property affecting the security or orderly running of the institution, or is gravely disabled (manifested by extreme deterioration in personal functioning).

(8) The psychiatrist must prepare a written report regarding the initial decision. The inmate must be promptly provided a copy of the initial decision report, and informed that he/she may appeal it to the institution’s mental health division administrator. The inmate’s appeal, which may be handwritten, must be submitted within 24 hours after receipt of the hearing officer’s report. Upon request of the inmate, the staff representative will assist the inmate in preparing and submitting the appeal.

(9) If the inmate appeals the initial decision, psychiatric medication must not be administered before the administrator issues a decision on the appeal, unless an exception exists as provided in paragraph (b) of this section. The inmate’s appeal will ordinarily be reviewed by the administrator or his designee within 24 hours of its submission. The administrator will review the initial decision and ensure that the inmate received all necessary procedural protections, and that the justification for administering psychiatric medication is appropriate.

(10) If an inmate was afforded an administrative hearing which resulted in the involuntary administration of psychiatric medication, and the inmate subsequently consented to the administration of such medication, and then later revokes his consent, a follow-up hearing will be held before resuming the involuntary administration of psychiatric medication. All such follow-up hearings will fully comply with the procedures outlined in paragraphs (a)(1) through (10) of this section.

(b) Exceptions. The Bureau may involuntarily administer psychiatric medication to inmates in the following circumstances without following the procedures outlined in paragraph (a) of this section:

(1) Psychiatric emergencies.

(i) During a psychiatric emergency, psychiatric medication may be administered only when the medication constitutes an appropriate treatment for the mental illness or disorder and its symptoms, and alternatives (e.g., seclusion or physical restraint) are not available or indicated, or would not be effective. If psychiatric medication is still recommended after the psychiatric emergency, and the emergency criteria no longer exist, it may only be administered after following the procedures in §§ 549.44 or 549.46 of this subpart.

(ii) For purposes of this subpart, a psychiatric emergency exists when a person suffering from a mental illness or disorder creates an immediate threat of:

(A) Bodily harm to self or others;
(B) Serious destruction of property affecting the security or orderly running of the institution; or
(C) Extreme deterioration in personal functioning secondary to the mental illness or disorder.

(2) Court orders for the purpose of restoring competency to stand trial. Absent a psychiatric emergency as defined above, § 549.46(a) of this subpart does not apply to the involuntary administration of psychiatric medication for the sole purpose of restoring a person’s competency to stand trial. Only a Federal court of competent jurisdiction may order the involuntary administration of psychiatric medication for the sole purpose of restoring a person’s competency to stand trial.

Subpart D—Plastic Surgery

SOURCE: 61 FR 13322, Mar. 26, 1996, unless otherwise noted.

§ 549.50 Purpose and scope.

The Bureau of Prisons does not ordinarily perform plastic surgery on inmates to correct preexisting disfigurements (including tattoos) on any part of the body. In circumstances where plastic surgery is a component of a presently medically necessary standard of treatment (for example, part of the treatment for facial lacerations or for mastectomies due to cancer) or it is necessary for the good order and security of the institution,

720
the necessary surgery may be performed.

§ 549.51 Approval procedures.

The Clinical Director shall consider individually any request from an inmate or a BOP medical consultant.

(a) In circumstances where plastic surgery is a component of the presently medically necessary standard of treatment, the Clinical Director shall forward the surgery request to the Office of Medical Designations and Transportation for approval.

(b) If the Clinical Director recommends plastic surgery for the good order and security of the institution, the request for plastic surgery authorization will be forwarded to the Warden for initial approval. The Warden will forward the request through the Regional Director to the Medical Director. The Medical Director shall have the final authority to approve or deny this type of plastic surgery request.

(c) If the Clinical Director is unable to determine whether the plastic surgery qualifies as a component of presently medically necessary standard of treatment, the Clinical Director may forward the request to the Medical Director for a final determination in accordance with the provisions of paragraph (b) of this section.

§ 549.52 Informed consent.

Approved plastic surgery procedures may not be performed without the informed consent of the inmate involved.

Subpart E—Hunger Strikes, Inmate

Source: 45 FR 23365, Apr. 4, 1980, unless otherwise noted.

§ 549.60 Purpose and scope.

The Bureau of Prisons provides guidelines for the medical and administrative management of inmates who engage in hunger strikes. It is the responsibility of the Bureau of Prisons to monitor the health and welfare of individual inmates, and to ensure that procedures are pursued to preserve life.

[45 FR 23365, Apr. 4, 1980, as amended at 59 FR 31883, June 20, 1994]

§ 549.61 Definition.

As defined in this rule, an inmate is on a hunger strike:

(a) When he or she communicates that fact to staff and is observed by staff to be refraining from eating for a period of time, ordinarily in excess of 72 hours; or

(b) When staff observe the inmate to be refraining from eating for a period in excess of 72 hours. When staff consider it prudent to do so, a referral for medical evaluation may be made without waiting 72 hours.

§ 549.62 Initial referral.

(a) Staff shall refer an inmate who is observed to be on a hunger strike to medical or mental health staff for evaluation and, when appropriate, for treatment.

(b) Medical staff ordinarily shall place the inmate in a medically appropriate locked room for close monitoring.

[59 FR 31883, June 20, 1994]

§ 549.63 Initial medical evaluation and management.

(a) Medical staff shall ordinarily perform the following procedures upon initial referral of an inmate on a hunger strike:

(1) Measure and record height and weight;

(2) Take and record vital signs;

(3) Urinalysis;

(4) Psychological and/or psychiatric evaluation;

(5) General medical evaluation;

(6) Radiographs as clinically indicated;

(7) Laboratory studies as clinically indicated.

(b) Medical staff shall take and record weight and vital signs at least once every 24 hours while the inmate is on a hunger strike. Other procedures identified in paragraph (a) of this section shall be repeated as medically indicated.

(c) When valid medical reasons exist, the physician may modify, discontinue, or expand any of the medical procedures described in paragraphs (a) and (b) of this section.

(d) When medical staff consider it medically mandatory, an inmate on a
