(9) When the inmate needs to urinate and/or defecate, the inmate will be furnished an empty hospital bed pan.

(10) When the inmate requests to shave, to brush teeth, or other such request, a wash pan and container of water is to be provided for use in the cell.

(11) Institution staff shall be available to the inmate upon request, within reason and within the bounds of security concerns.

§ 552.13  X-ray, major instrument, fluoroscope, or surgical intrusion.

(a) The institution physician may authorize use of a fluoroscope, major instrument (including anoscope or vaginal speculum), or surgical intrusion for medical reasons only, with the inmate’s consent.

(b) The institution physician may authorize use of an X-ray for medical reasons and only with the consent of the inmate. When there exists no reasonable alternative, and an X-ray examination is determined necessary for the security, good order, or discipline of the institution, the Warden, upon approval of the Regional Director, may authorize the institution physician to order a non-repetitive X-ray examination for the purpose of determining if contraband is concealed in or on the inmate (for example: in a cast or body cavity). The X-ray examination may not be performed if it is determined by the institution physician that it is likely to result in serious or lasting medical injury or harm to the inmate. Staff shall place documentation of the examination and the reasons for the examination in the inmate’s central file and medical file.

(1) The Warden and Regional Director or persons officially acting in that capacity may not redelegate the authority to approve an X-ray examination for the purpose of determining if contrabrand is present. An Acting Warden or Acting Regional Director may, however, perform this function.

(2) Staff shall solicit the inmate’s consent prior to the X-ray examination. However, the inmate’s consent is not required.

(c) The Warden may direct X-rays of inanimate objects where the inmate is not exposed.

§ 552.20  Purpose and scope.

The Bureau of Prisons authorizes staff to use force only as a last alternative after all other reasonable efforts to resolve a situation have failed. When authorized, staff must use only that amount of force necessary to gain control of the inmate, to protect and ensure the safety of inmates, staff, and others, to prevent serious property damage and to ensure institution security and good order. Staff are authorized to apply physical restraints necessary to gain control of an inmate who appears to be dangerous because the inmate:

(a) Assaults another individual;

(b) Destroys government property;

(c) Attempts suicide;

(d) Inflicts injury upon self; or

(e) Becomes violent or displays signs of imminent violence.

This rule on application of restraints does not restrict the use of restraints in situations requiring precautionary restraints, particularly in the movement or transfer of inmates (e.g., the use of handcuffs in moving inmates to and from a cell in detention, escorting
