hours’ pay for a particular job whether it is performed in 8 hours or in less time, the extra premium of 2 hours’ pay received by an employee who completes the job in 6 hours must be included in his regular rate. Similarly, where an employer pays for 8 hours at premium rates for a job performed during the overtime hours whether it is completed in 8 hours or less, no part of the premium paid qualifies as overtime premium under sections 7(e) (5), (6), or (7). (For a further discussion of this and related problems, see §§778.308 to 778.314.)

§ 778.208 Inclusion and exclusion of bonuses in computing the “regular rate.”

Section 7(e) of the Act requires the inclusion in the regular rate of all remuneration for employment except eight specified types of payments. Among these excludable payments are discretionary bonuses, gifts and payments in the nature of gifts on special occasions, contributions by the employer to certain welfare plans and payments made by the employer pursuant to certain profit-sharing, thrift and savings plans. These are discussed in §§778.211 through 778.214. Bonuses which do not qualify for exclusion from the regular rate as one of these types must be totaled in with other earnings to determine the regular rate on which overtime pay must be based. Bonus payments are payments made in addition to the regular earnings of an employee. For a discussion on the bonus form as an evasive bookkeeping device, see §§778.502 and 778.503.

[33 FR 966, Jan. 26, 1968, as amended at 76 FR 18858, Apr. 5, 2011]

§ 778.209 Method of inclusion of bonus in regular rate.

(a) General rules. Where a bonus payment is considered a part of the regular rate at which an employee is employed, it must be included in computing his regular hourly rate of pay and overtime compensation. No difficulty arises in computing overtime compensation if the bonus covers only one weekly pay period. The amount of the bonus is merely added to the other earnings of the employee (except statutory exclusions) and the total divided by total hours worked. Under many bonus plans, however, calculations of the bonus may necessarily be deferred over a period of time longer than a workweek. In such a case the employer may disregard the bonus in computing the regular hourly rate until such time as the amount of the bonus can be ascertained. Until that is done he may pay compensation for overtime at one and one-half times the hourly rate paid by the employee, exclusive of the bonus. When the amount of the bonus can be ascertained, it must be apportioned back over the workweeks of the period during which it may be said to have been earned. The employee must then receive an additional amount of compensation for each workweek that he worked overtime during the period equal to one-half of the hourly rate of pay allocable to the bonus for that week multiplied by the number of statutory overtime hours worked during the week.

(b) Allocation of bonus where bonus earnings cannot be identified with particular workweeks. If it is impossible to allocate the bonus among the workweeks of the period in proportion to the amount of the bonus actually earned each week, some other reasonable and equitable method of allocation must be adopted. For example, it may be reasonable and equitable to assume that the employee earned an equal amount of bonus each week of the period to which the bonus relates, and if the facts support this assumption additional compensation for each overtime week of the period may be computed and paid in an amount equal to one-half of the average hourly increase in pay resulting from bonus allocated to the week, multiplied by the number of statutory overtime hours worked in that week. Or, if there are facts which make it inappropriate to assume equal bonus earnings for each workweek, it may be reasonable and equitable to assume that the employee earned an equal amount of bonus each week of the period to which the bonus relates, and if the facts support this assumption additional compensation for each overtime week of the period may be computed and paid in an amount equal to one-half of the average hourly increase in pay resulting from bonus allocated to the week, multiplied by the number of statutory overtime hours worked in that week.
