Title 3—The President

This notice shall be published in the Federal Register and transmitted to the Congress.

THE WHITE HOUSE, November 7, 2013.

BARACK OBAMA

Notice of November 12, 2013

Continuation of the National Emergency With Respect to Iran

On November 14, 1979, by Executive Order 12170, the President declared a national emergency with respect to Iran and, pursuant to the International Emergency Economic Powers Act (50 U.S.C. 1701–1706), took related steps to deal with the unusual and extraordinary threat to the national security, foreign policy, and economy of the United States constituted by the situation in Iran. Because our relations with Iran have not yet returned to normal, and the process of implementing the agreements with Iran, dated January 19, 1981, is still under way, the national emergency declared on November 14, 1979, must continue in effect beyond November 14, 2013. Therefore, in accordance with section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)), I am continuing for 1 year the national emergency with respect to Iran declared in Executive Order 12170.

This notice shall be published in the Federal Register and transmitted to the Congress.

THE WHITE HOUSE, November 12, 2013.

BARACK OBAMA

Presidential Determination No. 2014–3 of November 29, 2013

Presidential Determination Pursuant to Section 1245(d)(4)(B) and (C) of the National Defense Authorization Act for Fiscal Year 2012

Memorandum for the Secretary of State[,] the Secretary of the Treasury[, and] the Secretary of Energy

By the authority vested in me as President by the Constitution and the laws of the United States, after carefully considering the report submitted to the Congress by the Energy Information Administration on October 31, 2013, and other relevant factors, including global economic conditions, increased oil production by certain countries, and the level of spare capacity, I determine, pursuant to section 1245(d)(4)(B) and (C) of the National Defense Authorization Act for Fiscal Year 2012, Public Law 112–81, and consistent with my determinations of March 30, 2012, June 11, 2012, December 7, 2012, and June 5, 2013, that there is a sufficient supply of petroleum and
Other Presidential Documents

petroleum products from countries other than Iran to permit a significant reduction in the volume of petroleum and petroleum products purchased from Iran by or through foreign financial institutions.

I will closely monitor this situation to ensure that the market can continue to accommodate a reduction in purchases of petroleum and petroleum products from Iran.

The Secretary of State is authorized and directed to publish this memorandum in the Federal Register.

BARACK OBAMA

THE WHITE HOUSE,

Suspension of Limitations Under the Jerusalem Embassy Act

Memorandum for the Secretary of State

Pursuant to the authority vested in me as President by the Constitution and the laws of the United States, including section 7(a) of the Jerusalem Embassy Act of 1995 (Public Law 104–45)(the “Act”), I hereby determine that it is necessary, in order to protect the national security interests of the United States, to suspend for a period of 6 months the limitations set forth in sections 3(b) and 7(b) of the Act.

You are authorized and directed to transmit this determination to the Congress, accompanied by a report in accordance with section 7(a) of the Act, and to publish the determination in the Federal Register.

This suspension shall take effect after the transmission of this determination and report to the Congress.

BARACK OBAMA

THE WHITE HOUSE,

Memorandum of December 5, 2013

Federal Leadership on Energy Management

Memorandum for the Heads of Executive Departments and Agencies

In order to create a clean energy economy that will increase our Nation’s prosperity, promote energy security, combat climate change, protect the interests of taxpayers, and safeguard the health of our environment, the Federal Government must lead by example. During my Administration, Federal agencies have reduced their annual greenhouse gas emissions by more than 15 percent (7.8 million metric tons)—the equivalent of removing 1.5 million cars from the road. Today I am establishing new goals for renewable energy as well as new energy-management practices.
