Commander with COTP and OCMI authority may also determine that one or more secondary means of escape is required.

(e) When personnel are on an unmanned deepwater port, the deepwater port must have, in addition to the one primary means of escape, either:

(1) Another primary means of escape; or

(2) One or more secondary means of escape in any work space that may be temporarily occupied by 10 persons or more.

(f) Structural appendages to an unmanned deepwater port do not require a primary or a secondary means of escape, unless the Sector Commander, or MSU Commander with COTP and OCMI authority determines that one or more are necessary.

(g) Each means of escape must extend from the deepwater port’s uppermost working level to each successively lower working level, and so on to the water surface.

§ 149.693 What are the requirements for personnel landings on manned deepwater ports?

(a) On manned deepwater ports, sufficient personnel landings must be provided to assure safe access and egress.

(b) The personnel landings must be provided with satisfactory illumination. The minimum is 1 foot candle of artificial illumination as measured at the landing floor and guards and rails.

§ 149.694 What are the requirements for catwalks, floors, and openings?

(a) The configuration and installation of catwalks, floors, and openings must comply with §143.110 of this chapter.

(b) This section does not apply to catwalks, floors, deck areas, or openings in areas not normally occupied by personnel or on helicopter landing decks.

§ 149.695 What are the requirements for stairways?

Stairways must have at least two courses of rails. The top course must serve as a handrail and be at least 34 inches above the tread.

§ 149.696 What are the requirements for a helicopter landing deck safety net?

A helicopter landing deck safety net must comply with 46 CFR 108.235.

Noise Limits

§ 149.697 What are the requirements for a noise level survey?

(a) A survey to determine the maximum noise level during normal operations must be conducted in each accommodation space, working space, or other space routinely used by personnel. The recognized methodology used to conduct the survey must be specified in the survey results. Survey results must be kept on the deepwater port or, for an unmanned deepwater port, in the owner's principal office.

(b) The noise level must be measured over 12 hours to derive a time weighted average (TWA) using a sound level meter and an A-weighted filter or equivalent device.

(c) If the noise level throughout a space is determined to exceed 85 db(A), based on the measurement criteria in paragraph (b) of this section, then signs must be posted with the legend: “Noise Hazard—Hearing Protectors Required.” Signs must be posted at eye level at each entrance to the space.

(d) If the noise level exceeds 85 db(A) only in a portion of a space, then the sign described in paragraph (c) of this section must be posted within that portion where visible from each direction of access.

(e) Working spaces and other areas routinely used by personnel, other than accommodation spaces, must be designed to limit the noise level in those areas so that personnel wearing hearing protectors may hear warning and emergency alarms. If this is not practicable and warning and emergency alarms cannot be heard, visual alarms in addition to the audible alarms must be installed.
PORTABLE LIGHTS
§ 149.700 What kind of portable lights may be used on a deepwater port?
Each portable light and its supply cord on a deepwater port must be designed for the environment where it is used.

PART 150—DEEPWATER PORTS: OPERATIONS

Subpart A—General
Sec.
150.1 What does this part do?
150.5 Definitions.
150.10 What are the general requirements for operations manuals?
150.15 What must the operations manual include?
150.20 How many copies of the operations manual must be given to the Coast Guard?
150.25 Amending the operations manual.
150.30 Proposing an amendment to the operations manual.
150.35 How may an adjacent coastal state request an amendment to the deepwater port operations manual?
150.40 Deviating from the operations manual.
150.45 Emergency deviation from this subchapter or the operations manual.
150.50 What are the requirements for a facility spill response plan?

Subpart B—Inspections
150.100 What are the requirements for inspecting deepwater ports?
150.105 What are the requirements for annual self-inspection?
150.110 What are the notification requirements upon receipt of classification society certifications?

Subpart C—Personnel
150.200 Who must ensure that deepwater port personnel are qualified?
150.205 What are the language requirements for deepwater port personnel?
150.210 What are the restrictions on serving in more than one position?
150.225 What training and instruction are required?

Subpart D—Vessel Navigation
150.300 What does this subpart do?
150.305 How does this subpart apply to unmanned deepwater ports?
150.310 When is radar surveillance required?
150.320 What advisories are given to tankers?
150.325 What is the first notice required before a tanker enters the safety zone or area to be avoided?
150.330 What is the second notice required before a tanker enters the safety zone or area to be avoided?
150.340 What are the rules of navigation for tankers in the safety zone or area to be avoided?
150.345 How are support vessels cleared to move within the safety zone or area to be avoided?
150.350 What are the rules of navigation for support vessels in the safety zone or area to be avoided?
150.355 How are other vessels cleared to move within the safety zone?
150.380 Under what circumstances may vessels operate within the safety zone or area to be avoided?
150.385 What is required in an emergency?

Subpart E—Cargo Transfer Operations
150.400 What does this subpart do?
150.405 How must a cargo transfer system be tested and inspected?
150.420 What actions must be taken when cargo transfer equipment is defective?
150.425 What are the requirements for transferring cargo?
150.430 What are the requirements for a declaration of inspection?
150.435 When are cargo transfers not allowed?
150.440 How may the Sector Commander, or MSU Commander, with COTP and OCMI authority, order suspension of cargo transfers?
150.445 When is oil in a single point mooring-oil transfer system (SPM-OTS) displaced with water?

Subpart F—Emergency and Specialty Equipment
150.500 What does this subpart do?

MAINTENANCE AND REPAIR
150.501 How must emergency equipment be maintained and repaired?

LIFESAVING EQUIPMENT (GENERAL)
150.502 What are the maintenance and repair requirements for lifesaving equipment?

LAUNCHING APPLIANCES
150.503 What are the time interval requirements for maintenance on survival craft falls?
150.504 When must the operator service and examine lifeboat and rescue boat launching appliances?
150.505 When must the operator service and examine lifeboat and rescue boat release gear?
