§ 251.123 Visitor services to be provided by a historical operator, the authorized officer shall modify the historical operator’s special use authorization to reflect the reduced services as follows:

(i) If more than one historical operator provides services in the area where visitor service capacity is to be reduced, the authorized officer shall apportion the reduction among the historical operators, taking into account historical operating levels and such other factors as are relevant to achieve a proportionate reduction among the operators.

(ii) If the reductions in visitor service capacity make it necessary to reduce operators in an area, the authorized officer shall select, through a competitive process that is limited to historical operators only, the operator or operators to receive a special use authorization from among the historical operators. Historical operators participating in this competitive process may not claim a preference as a preferred operator under § 251.124.

(f) Any of the following shall result in the loss of historical operator status:

(1) Revocation of a special use authorization for historical types and levels of visitor services for failure to comply with the terms and conditions of the special use authorization;

(2) A historical operator’s refusal of an offer to reissue a special use authorization made pursuant to paragraph (e) of this section;

(3) A change in the controlling interest of a historical operator through sale, assignment, devise, transfer, or otherwise, except as provided in paragraph (g) of this section; or

(4) An operator’s failure to provide the authorized services for a period of more than 24 consecutive months.

(g) A change in the controlling interest of a historical operator that results only in the acquisition of the controlling interest by an individual or individuals, who were personally engaged in the visitor service activities of the historical operator before January 1, 1979, shall not be deemed a change in the historical operator’s controlling interest for the purposes of this subpart.

(h) Nothing in this section shall prohibit the authorized officer from authorizing persons other than historical operators to provide visitor services in the same area, as long as historical operators receive authorization to provide visitor services that are the same as or similar to those they provided on or before January 1, 1979.

(i) If an authorized officer grants to a historical operator an increase in the scope or level of visitor services from what was provided on or before January 1, 1979, beyond what was authorized under paragraph (d) of this section, for either the same or similar visitor services, the historical operator has no right of preference for the increased amount of authorized services. If additional operations are authorized, the special use authorization shall explicitly state that they are not subject to the historical operator preference.

§ 251.123 Most directly affected Native Corporation determination.

(a) Before issuance of the first special use authorization for a specific CSU pursuant to § 251.124 on or after the effective date of this subpart, the authorized officer shall give notice to Native Corporations interested in providing visitor services within the CSU and give them an opportunity to submit an application to be considered the Native Corporation most directly affected by the establishment or expansion of the CSU under section 1307(b) of ANILCA (16 U.S.C. 1397(b)). In giving notice of the application procedure, the authorized officer shall make clear that this is the only opportunity to apply for most directly affected status for that particular CSU.

(i) At a minimum, an application from an interested Native Corporation shall include the following:

(i) Name, address, and telephone number of the Native Corporation; date of its incorporation; its articles of incorporation and structure; and the name of the applicable CSU and the solicitation to which the Native Corporation is responding;

(ii) Location of the Native Corporation’s population centers; and

(iii) An assessment of the socio-economic impacts (including changes in historical and traditional use and landownership patterns) on the Native
Corporation resulting from establishment or expansion of the applicable CSU.

(2) In addition to the minimum information required by paragraph (a)(1) of this section, Native Corporations may submit such additional information as they consider relevant.

(b) Upon receipt of all applications from interested Native Corporations, the authorized officer shall determine the most directly affected Native Corporation considering the following factors:

(1) Distance and accessibility from the Native Corporation’s population centers and/or business address to the applicable CSU;

(2) Socioeconomic impacts (including changes in historical and traditional use and landownership patterns) on Native Corporations resulting from establishment or expansion of the applicable CSU; and

(3) Information provided by Native Corporations and other information considered relevant by the authorized officer to assessment of the effects of establishment or expansion of the applicable CSU.

(c) In the event that two or more Native Corporations are determined to be equally affected for purposes of the most directly affected Native Corporation determination pursuant to this section, each such Native Corporation shall be considered a preferred operator under this subpart.

(d) A Native Corporation determined to be most directly affected for a CSU shall maintain that status for all future visitor service solicitations for that CSU.

§ 251.124 Preferred operator competitive special use authorization procedures.

(a) In selecting persons to provide visitor services for a CSU, the authorized officer shall, if the number of visitor service authorizations is to be limited, give a preference (subject to any rights of historical operators under this subpart) to preferred operators as defined in this subpart who are determined to be qualified to provide such visitor services.

(b) In such circumstances, the authorized officer shall solicit applications competitively by issuing a prospectus for persons to apply for a visitor services authorization. Notwithstanding Forest Service outfitting and guiding policy in Forest Service Handbook 2709.11, chapter 40, when authorizations, including priority use permits for activities other than sport hunting and fishing, expire in accordance with their terms, they shall not be reissued if there is a need to limit use and when there is competitive interest by preferred operators.

(c) To qualify as a preferred operator under this subpart, an applicant responding to a solicitation made under this section must be determined by the authorized officer to be a local resident as defined in § 251.121 of this subpart, or the Native Corporation most directly affected by establishment or expansion of the CSU covered by the solicitation pursuant to § 251.123 of this subpart.

(d) Applicants seeking preferred operator status based on local residency must provide documentation verifying their claim. Factors demonstrating the location of an individual’s primary, permanent residence and business include, but are not limited to, the permanent address indicated on licenses issued by the State of Alaska, tax returns, and voter registration.

(e) An application from a preferred operator in the form of a corporation, partnership, limited partnership, joint venture, individual entrepreneurship, nonprofit entity, or other form of organization shall be considered valid only when the application documents to the satisfaction of the authorized officer that the preferred operator holds the controlling interest in the corporation, partnership, limited partnership, joint venture, individual entrepreneurship, nonprofit entity, or other form of organization.

(f) A qualified preferred operator shall be given preference, pursuant to paragraph (g) of this section, over all other applicants, except with respect to use allocated to historical operators pursuant to § 251.122 of this subpart.

(g) If the best application from a preferred operator is at least substantially equal to the best application from a non-preferred operator, the preferred operator shall be issued the visitor service authorization. If an application
