§ 17.157 Definition-adaptive equipment.

The term, adaptive equipment, means equipment which must be part of or added to a conveyance manufactured for sale to the general public to make it safe for use by the claimant, and enable that person to meet the applicable standards of licensure. Adaptive equipment includes any term specified by the Under Secretary for Health or designee as ordinarily necessary for any of the classes of losses or combinations of such losses specified in §17.156 of this part, or as deemed necessary in an individual case. Adaptive equipment includes, but is not limited to, a basic automatic transmission, power steering, power brakes, power window lifts, power seats, air-conditioning equipment when necessary for the health and safety of the veteran, and special equipment necessary to assist the eligible person into or out of the automobile or other conveyance, regardless of whether the automobile or other conveyance is to be operated by the eligible person or is to be operated for such person by another person; and any modification of the interior space of the automobile or other conveyance if needed because of the physical condition of such person in order for such person to enter or operate the vehicle.

(a) Persons eligible for adaptive equipment are:

(1) Veterans who are entitled to receive compensation for the loss or permanent loss of use of one or both feet; or the loss or permanent loss of use of one or both hands; or ankylosis of one or both knees, or one of both hips if the disability is the result of injury incurred or disease contracted in or aggravated by active military, naval or air service.

(2) Members of the Armed Forces serving on active duty who are suffering from any disability described in paragraph (a)(1) of this section incurred or contracted during or aggravated by active military service are eligible to receive automobile adaptive equipment.

(b) Payment or reimbursement of reasonable costs for the repair, replacement, or reinstallation of adaptive equipment deemed necessary for the operation of the automobile may be authorized by the Under Secretary for Health or designee.
