unpaid (if the unpaid bill or the unpaid balance is less than the statutory plot or interment allowance, only the unpaid amount may be claimed by the funeral director); or
(ii) The person(s) whose personal funds were used to defray the cost of the plot or interment expenses; or
(iii) The person or entity from whom the plot was purchased or who provided interment services if the bill for such is unpaid in whole or in part. An unpaid bill for a plot will take precedence in payment of the plot or interment allowance over an unpaid bill for other interment expenses or a claim for reimbursement for such expenses. Any remaining balance of the plot or interment allowance may then be applied to interment expenses; or
(iv) The executor or administrator of the estate of the veteran or the person who bore the expense of the plot or interment expenses. If no executor or administrator has been appointed, claim for the plot or interment allowance may be filed as provided in paragraph (c)(1)(iii) of this section for the burial allowance.

§ 3.1703 Claims for burial benefits.
(a) When claims must be filed—(1) General rule. Except as provided in paragraph (a)(2) of this section, VA must receive a claim for the non-service-connected burial allowance no later than 2 years after the burial of the veteran. There are no other time limitations to file claims for burial benefits under subpart B of this part.

§ 3.1704 Burial allowance based on service-connected death.

(a) General rule. VA will pay the maximum burial allowance specified in 38 U.S.C. 2307 for the burial and funeral expenses of a veteran described in paragraph (b) of this section, unless VA has evidence on the date it receives notice of the veteran’s death that the expenses incurred were less than that amount. Payment of the service-connected burial allowance is in lieu of other allowances authorized by subpart B of this part, except those allowances listed in paragraph (c) of this section.

(b) Eligibility. A burial allowance is payable under this section for a veteran who died as a result of a service-connected disability. VA will presum, unless it has evidence to the contrary on the date it receives notice of the veteran’s death, that a veteran died as a result of a service-connected disability if, at the date of death, the veteran was rated totally disabled for a service-connected disability or disabilities, excluding a total disability rating based on individual unemployability.

(c) Additional allowances available based on service-connected death. In addition to the service-connected burial allowance authorized by this section:

(1) VA may reimburse for transportation expenses related to burial in a national cemetery under § 3.1709. Transportation expenses for burial in a national cemetery;

(2) VA may pay the plot or interment allowance for burial in a State veterans cemetery under § 3.1707(a). Plot or interment allowance.
