REQUIREMENTS FOR ADMINISTERING A SUPERFUND STATE CONTRACT (SSC)

§ 35.6800 Superfund State Contract.

A Superfund State Contract (SSC) with a State is required before EPA can obligate or expend funds for a remedial action at a site within the State and before EPA or a political subdivision can conduct the remedial action. An SSC also ensures State or Indian Tribe involvement consistent with CERCLA sections 121(f) and 126, respectively, and obtains the required section 104 assurances (See §35.6105(b)). An SSC may also be used to document the roles and responsibilities of a State, Indian Tribe, and political subdivision during any response action at
Environmental Protection Agency

§ 35.6805 Contents of an SSC.

The SSC must include the following provisions:

(a) General authorities, which documents the relevant statutes and regulations (of each government entity that is a party to the contract) governing the contract.

(b) Purpose of the SSC, which describes the response activities to be conducted and the benefits to be derived.

(c) Negation of agency relationship between the signatories, which states that no signatory of the SSC can represent or act on the behalf of any other signatory in any matter associated with the SSC.

(d) A site description, pursuant to § 35.6105(a)(2)(i).

(e) A site-specific Statement of Work, pursuant to § 35.6105(a)(2)(ii) and a statement of whether the contract constitutes an initial SSC or an amendment to an existing contract.

(f) A statement of intention to follow EPA policy and guidance.

(g) A project schedule to be prepared during response activities.

(h) A statement designating a primary contact for each party to the contract, which designates representatives to act on behalf of each signatory in the implementation of the contract. This statement must document the authority of each project manager to approve modifications to the project so long as such changes are within the scope of the contract and do not significantly impact the SSC.

(i) The CERCLA assurances, as appropriate, described as follows:

(1) Operation and maintenance. The State must provide an assurance pursuant to § 35.6105(b)(1). The State’s responsibility for operation and maintenance generally begins when EPA determines that the remedy is operational and functional or one year after construction completion, whichever is sooner (See, 40 CFR 300.435(f)).

(2) Twenty-year waste capacity. The State must provide an assurance pursuant to § 35.6105(b)(3).

(3) Off-site storage, treatment, or disposal. If off-site storage, destruction, treatment, or disposal is required, the State must provide an assurance pursuant to § 35.6105(b)(4); the political subdivision may not provide this assurance.

(4) Real property acquisition. When real property must be acquired, the State must provide an assurance pursuant to § 35.6105(b)(5).

(5) Provision of State cost share. The State must provide assurances for cost sharing pursuant to §35.6105(b)(2). Even if the political subdivision is providing the actual cost share, the State must guarantee payment of the cost share in the event of default by the political subdivision.

(j) Cost share conditions, which include:

(1) An estimate of the response action cost (excluding EPA’s indirect costs) that requires cost share;

(2) The basis for arriving at this figure (See §35.6285(c) for credit provisions); and

(3) The payment schedule as negotiated by the signatories, and consistent with either a lump-sum or incremental-payment option. Upon completion of activities in the site-specific Statement of Work, EPA shall invoice the State for its final payment, with the exception of any change orders and claims handled during reconciliation of the SSC.

(k) Reconciliation provision, which states that the SSC remains in effect until the financial settlement of project costs and final reconciliation of response costs (including all change orders, claims, overmatch of cost share, reimbursements, etc.) ensures that both EPA and the State have satisfied the cost share requirement contained in section 104 of CERCLA, as amended. The recipient may direct EPA to return the overmatch or to use the excess cost share payment at one site to meet the cost share obligation at another site in accordance with §35.6285(d). Reimbursements for any overmatch will be made to the recipient identified in the SSC.

(l) Amendability of the SSC, which provides that:

(1) Formal amendments are required when alterations to CERCLA-funded activities are necessary or when alterations impact the State’s assurances
