provisions of 40 CFR part 80, subpart I, except as provided in paragraphs (c), (d), (e), and (g)(2) of this section:

(i) June 1, 2010 or diesel fuel produced or imported by any refiner or importer,

(ii) August 1, 2010 at all downstream locations, except at retail facilities and wholesale-purchaser consumers,

(iii) October 1, 2010 at retail facilities and wholesale-purchaser consumers, and

(iv) December 1, 2010 at all locations.

(2) The per-gallon sulfur content standard for all LM diesel fuel shall be 15 ppm maximum.

(3) Diesel fuel used in new stationary internal combustion engines regulated under 40 CFR part 60 shall be subject to the fuel-related provisions of that subpart beginning December 1, 2010.

(h) Alternative labels to those specified in paragraphs (e)(3) and (f)(2) of this section may be used as approved by EPA.

[69 FR 39165, June 29, 2004, as amended at 71 FR 32463, June 6, 2006]

PART 70—STATE OPERATING PERMIT PROGRAMS

Sec.
70.1 Program overview.
70.2 Definitions.
70.3 Applicability.
70.4 State program submittals and transition.
70.5 Permit applications.
70.6 Permit content.
70.7 Permit issuance, renewal, reopenings, and revisions.
70.8 Permit review by EPA and affected States.
70.9 Fee determination and certification.
70.10 Federal oversight and sanctions.
70.11 Requirements for enforcement authority.
70.12 Enforceable commitments for further actions addressing greenhouse gases (GHGs).

APPENDIX A TO PART 70—APPROVAL STATUS OF STATE AND LOCAL OPERATING PERMITS PROGRAMS

AUTHORITY: 42 U.S.C. 7401, et seq.
SOURCE: 57 FR 32295, July 21, 1992, unless otherwise noted.

§ 70.1 Program overview.

(a) The regulations in this part provide for the establishment of comprehensive State air quality permitting systems consistent with the requirements of title V of the Clean Air Act (Act) (42 U.S.C. 7401, et seq.). These regulations define the minimum elements required by the Act for State operating permit programs and the corresponding standards and procedures by which the Administrator will approve, oversee, and withdraw approval of State operating permit programs.

(b) All sources subject to these regulations shall have a permit to operate that assures compliance by the source with all applicable requirements. While title V does not impose substantive new requirements, it does require that fees be imposed on sources and that certain procedural measures be adopted especially with respect to compliance.

(c) Nothing in this part shall prevent a State, or interstate permitting authority, from establishing additional or more stringent requirements not inconsistent with this Act. The EPA will approve State program submittals to the extent that they are not inconsistent with the Act and these regulations. No permit, however, can be less stringent than necessary to meet all applicable requirements. In the case of Federal intervention in the permit process, the Administrator reserves the right to implement the State operating permit program, in whole or in part, or the Federal program contained in regulations promulgated under title V of the Act.

(d) The requirements of part 70, including provisions regarding schedules for submission and approval or disapproval of permit applications, shall apply to the permitting of affected sources under the acid rain program, except as provided herein or modified in regulations promulgated under title IV of the Act (acid rain program).

(e) Issuance of State permits under this part may be coordinated with issuance of permits under the Resource Conservation and Recovery Act and under the Clean Water Act, whether issued by the State, the U.S. Environmental Protection Agency (EPA), or the U.S. Army Corps of Engineers.
§ 70.2 Definitions.

The following definitions apply to part 70. Except as specifically provided in this section, terms used in this part retain the meaning accorded them under the applicable requirements of the Act.

**Act** means the Clean Air Act, as amended, 42 U.S.C. 7401, et seq.

**Affected source** shall have the meaning given to it in the regulations promulgated under title IV of the Act.

**Affected States** are all States:

1. Whose air quality may be affected and that are contiguous to the State in which a part 70 permit, permit modification or permit renewal is being proposed; or
2. That are within 50 miles of the permitted source.

**Affected unit** shall have the meaning given to it in the regulations promulgated under title IV of the Act.

**Alternative operating scenario (AOS)** means a scenario authorized in a part 70 permit that involves a change at the part 70 source for a particular emissions unit, and that either results in the unit being subject to one or more applicable requirements which differ from those applicable to the emissions unit prior to implementation of the change or renders inapplicable one or more requirements previously applicable to the emissions unit prior to implementation of the change.

**Applicable requirement** means all of the following as they apply to emissions units in a part 70 source (including requirements that have been promulgated or approved by EPA through rulemaking at the time of issuance but have future-effective compliance dates):

1. Any standard or other requirement provided for in the applicable implementation plan approved or promulgated by EPA through rulemaking under title I of the Act, including any revisions to that plan promulgated in part 52 of this chapter;
2. Any term or condition of any preconstruction permits issued pursuant to regulations approved or promulgated through rulemaking under title I, including parts C or D, of the Act;
3. Any standard or other requirement under section 111 of the Act, including section 111(d);
4. Any standard or other requirement under section 112 of the Act, including any requirement concerning accident prevention under section 112(c)(7) of the Act;
5. Any standard or other requirement of the acid rain program under title IV of the Act or the regulations promulgated thereunder;
6. Any requirements established pursuant to section 504(b) or section 114(a)(3) of the Act;
7. Any standard or other requirement under section 126(a)(1) and (c) of the Act;
8. Any standard or other requirement governing solid waste incineration, under section 129 of the Act;
9. Any standard or other requirement for consumer and commercial products, under section 183(e) of the Act;
10. Any standard or other requirement for tank vessels under section 183(f) of the Act;
11. Any standard or other requirement of the program to control air pollution from outer continental shelf sources, under section 328 of the Act;
12. Any standard or other requirement of the regulations promulgated to protect stratospheric ozone under title VI of the Act, unless the Administrator has determined that such requirements need not be contained in a title V permit; and
13. Any national ambient air quality standard or increment or visibility requirement under part C of title I of the Act, but only as it would apply to temporary sources permitted pursuant to section 504(e) of the Act.

**Approved replicable methodology (ARM)** means part 70 permit terms that:

1. Specify a protocol which is consistent with and implements an applicable requirement, or requirement of this part, such that the protocol is
